Contents

V. THE FIRST COEFFICIENT BODY AND RELATED PROBLEMS IN S(b)

1 §. Determination of the Coefficient Body (a_2,a_3) by Aid of a Perfect Square Method

1. Introduction 1
2. The Boundary Functions 2:2 2
3. The Boundary Functions 1:2 12
4. The Boundary Functions 1:1 26

2 §. The Linear Combination $a_3 + \lambda a_2$ in $S_R(b)$

1. min $(a_3 + \lambda a_2)$ 49
2. max $(a_3 + \lambda a_2)$ for $e^{-1} \leqq b < 1$ 50
3. max $(a_3 + \lambda a_2)$ for $0 < b < e^{-1}$ 55

3 §. Re $(a_3 + \lambda a_2)$ in S(b)

1. Preliminary Remarks 60
2. The Extremal Case 2:2 61
3. The Extremal Case 1:2 73
4. The Extremal Case 1:1 84
5. Special Problems 91
6. The Minimum 94

4 §. Determination of Extremal Domains

1. Integration of Löwner's Differential Equation to Schiffer's Equation 99
2. The Extremal Case 2:2 103
3. The Extremal Case 1:2 114
4. The Extremal Case 1:1 116

VI. ON THE SECOND COEFFICIENT BODY IN $S_R(b)$

1 §. A Löwner-identity for Finding the Power-inequality for a Second Coefficient Body in $S_R(b)$

1. Löwner-identities 122
2. The Corresponding Power-inequality and the Equality Functions 127
3. Integration of Löwner's Differential Equation 133

2 §. Schiffer's Differential Equation for Functions 2:3

1. The Class S(b) 137
2. The Class $S_R(b)$ 141

Bibliografische Informationen
http://d-nb.info/820405701

digitalisiert durch DEUTSCHE NATIONAL BIBLIOTHEK

3 §. A Generalized Power-inequality for $S_R(b)$-functions
1. Löwner-identities 144
2. An Inequality of Power-type Expected to be Sharp in $S_R(b)$ with the Equality Function 2:3 145
3. The Boundary Curves of the Sharpness Region 149

4 §. Consequences for the Second Coefficient Body in $S_R(b)$
1. Application to the Second Coefficient Body 155
2. Maximizing a_4 in b and a_2 156
3. Maximizing a_4 in b 163
4. Integration of Löwner's Differential Equation 164
