

# Table of Contents

<b>Introduction</b> <i>D. Neubert</i>	1
<b>Glucagon and Perinatal Metabolism in the Rat</b> <i>J. R. Girard, E. B. Marliss, and R. Assan</i>	5
<b>Sexual Programing of the Rat Fetus and Neonate Studied by Selective Biochemical Testosterone-Depriving Agents</b> <i>A. S. Goldman</i>	17
<b>Hormonal Control of Sexual Development</b> <i>W. Elger, K.-J. Gräf, H. Steinbeck, and F. Neumann</i>	41
<b>Hormone-Induced Disturbances in Sexual Differentiation</b> <i>F. Neumann, K.-J. Gräf, and W. Elger</i>	71
<b>The Maintenance of Pregnancy by Progesterone and Estrone in Rats Fed a Protein-Free Diet</b> <i>E. Köhler, F. Wojnorowicz, and K. Borner</i>	103
<b>Effects of Brain Implants of Testosterone Propionate in Newborn Hamsters on Sexual Differentiation</b> <i>H. H. Swanson and J. S. Brayshaw</i>	119
<b>Induction of Conditions Leading to Cancer in the Genital Tract by Estrogen During the Differentiation Phase of the Genital Epithelium</b> <i>J. G. Forsberg</i>	139

<b>Androgens in Prenatal Development: Behavior Changes in Nonhuman Primates and Men</b> <i>A. A. Ehrhardt</i>	153
<b>A Comparative Endocrinological and Pharmacological View of the Maintenance or Interruption of Pregnancy</b> <i>W. Elger and F. Haase</i>	163
<b>Steroid Hormone Levels During Pregnancy in Various Species</b> <i>S. H. Hasan</i>	181
<b>Ovarian Steroids in Embryonic Development Before Nidation</b> <i>H. M. Beier</i>	199
<b>Hormone Control of Early Pregnancy</b> <i>I. Aref</i>	221
<b>Morphology of Development of the Endocrine System in Human Embryos and Fetuses</b> <i>H.-J. Merker</i>	233
<b>Lecturers</b>	241
