Part I The Cranial Ultrasound Procedure

1	Cranial Ultrasonography: Advantages and Aims	3
1.1	Advantages of Cranial Ultrasonography	3
1.2	Aims of Neonatal Cranial Ultrasonography	4
2	Cranial Ultrasonography: Technical Aspects	7
2.1	Equipment	7
2.1.1	Ultrasound Machine	7
2.1.2	Transducers	7
2.2	Data Management	10
2.3	Sonographer and Safety Precautions	13
3	Performing Cranial Ultrasound Examinations	15
3.1	Standard Views	15
3.1.1	Coronal Planes	15
3.1.2	Sagittal Planes	16
3.2	Supplemental Acoustic Windows	19
3.2.1	Posterior Fontanel	20
3.2.2	Temporal Windows	21

3.2.3	Mastoid Fontanels.	24
3.3	Doppler Flow Measurements	27
Appendix 3.1	Indications for Scanning Through Supplemental Windows	33
4	Assessing Cranial Ultrasound Examinations.	35
4.1	Assessing Cranial Ultrasound Examinations.	35
4.1.1	A Systematic Approach to Detect Cerebral Pathology.	35
Appendix 4.1	Measurement of the Lateral Ventricles	55
5	Timing of Ultrasound Examinations.	57
5.1	Timing of Ultrasound Examinations.	57
5.1.1	Cranial Ultrasound Screening	57
5.2	Cranial Ultrasonography at Term Corrected Age	63
5.3	Adaptations of Ultrasound Examinations, Depending on Diagnosis.	64
Appendix 5.1	Ultrasound Screening Protocol.	69
	Indications for Cranial Ultrasound Examinations.	69
	Ultrasound Screening Protocol	70
Appendix 5.2	How to Distinguish Physiological from Pathological Echodensities in the White Matter.	71
6	Scoring Systems	75
Appendix 6.1	Classification of Germinal Matrix – Intraventricular Haemorrhage	75
Appendix 6.2	Classification of Periventricular White Matter Echodensity (PVE).	81
Appendix 6.3	Classification of Periventricular Leukomalacia.	86

7	Limitations of Cranial Ultrasonography and Recommendations for MRI	91
7.1	Limitations of Cranial Ultrasonography	91
7.2	Role of MRI	92
7.2.1	Conditions in Which MRI Contributes to Diagnosis and/or Prognosis	92
7.3	Role of CT	93
Appendix 7.1	Indications for Neonatal MRI Examinations	93
8	Maturational Changes of the Neonatal Brain	97
8.1	Maturational Processes	97
8.2	Gyration	97
8.3	Cell Migration	100
8.4	Germinal Matrix Involution	100
8.5	Deep Grey Matter Changes	102
8.6	Changes in Cerebrospinal Fluid Spaces	102
9	Summary	111

Part II Ultrasound Anatomy of the Neonatal Brain

10	Coronal Planes	115
11	Sagittal Planes	131
12	Posterior Fontanel	141
13	Temporal Window	147
14	Mastoid Fontanel	151
