

C O N T E N T S

Chapter

I. Preliminaries	1
II. Souslin's Hypothesis	8
III. The Combinatorial Property $\Diamond$	23
IV. Homogeneous Souslin Trees and Lines	32
V. Rigid Souslin Trees and Lines	46
VI. Martin's Axiom and the Consistency of SH	54
VII. Towards $\text{Con}(\text{ZFC} + \text{CH} + \text{SH})$: A False Start	68
VIII. Iterated Forcing Jensen Style	74
IX. How Jensen Killed a Souslin Tree	97
X. $\text{Con ZFC} \rightarrow \text{Con}(\text{ZFC} + \text{CH} + \text{SH})$	113
APPENDIX. Iterated Souslin Forcing and $\mathcal{P}(\omega)$	122
