

Table of contents

1. Introduction.....	1
1.2. General Objective.....	6
1.3. Specific Objectives.....	6
2. Growth forms.....	7
2. 1. Historical evolution of the term.....	7
2. 1. Different schools and their concepts.....	9
2. 2. Growth forms in Leguminosae.....	12
3. Characterisation of the area of study.....	13
4. Materials and methods.....	37
5. Results.....	39
6. Description of the species.....	45
<i>Adesmia muricata</i> var. <i>muricata</i>	45
var. <i>gilliesii</i>	50
var. <i>dentata</i>	50
<i>Adesmia leptobotrys</i>	52
<i>Adesmia filipes</i>	57
<i>Adesmia retrofracta</i>	61
<i>Adesmia bicolor</i>	67
<i>Adesmia incana</i> var. <i>incana</i>	73
var. <i>grisea</i>	77
<i>Adesmia macrostachya</i>	78
<i>Adesmia cordobensis</i>	83
<i>Adesmia comechingona</i>	89
<i>Adesmia lihuelensis</i>	96
<i>Adesmia grandiflora</i>	101
<i>Adesmia trijuga</i>	105
<i>Adesmia guttulifera</i>	114
<i>Adesmia patagonica</i>	117
7. Comparative analysis of growth forms the studied <i>Adesmia</i> species.....	120
8. Discussion.....	130
9. Conclusions.....	136
10. Abstract.....	138
11. Resumen.....	139
12. Bibliography.....	140
13. Index ob botanical and common names.....	153
14. Acknowledgements.....	157
