Hans-Jörg Senn

1 Latest News in Cancer Genetics

Genetic Susceptibility, Predicting Risk and Preventing Cancer	7
---	---

Paul D. P. Pharoah

Novel Approaches to Identify Low Penetrance Cancer Susceptibility Genes Using Mouse Models	19
---	----

John P. de Koning, Jian-Hua Mao, Allan Balmain

2 Assessing New Cancer Susceptibility Genes

Development of Novel Selective Cell Ablation in the Mammary Gland and Brain to Study Cell-Cell Interactions and Chemoprevention	31
--	----

Barry A. Gusterson, Wei Cui, A. John Clark

Mouse Skin as a Model for Cancer Chemoprevention by Nonsteroidal Anti-Inflammatory Drugs	46
---	----

*Friedrich Marks, Gerhard Fürstenberger, Gitta Neufang,
Karin Müller-Decker*

Preclinical Models for Chemoprevention of Colon Cancer	58
--	----

Eugene W. Gerner, Natalia A. Ignatenko, David G. Besselsen

New Cancer Biomarkers Deriving from the NCI Early Detection Research .	72
--	----

Mukesh Verma, Sudhir Srivastava

3 Update in Chemoprevention of Breast Cancer

Tamoxifen's Impact as a Preventive Agent in Clinical Practice and an Update on the STAR Trial	87
--	----

D. Lawrence Wickerham

Aromatase Inhibitors in Prevention – Data from the ATAC (Arimidex, Tamoxifen Alone or in Combination) Trial and the Design of IBIS-II (The Second International Breast Cancer Intervention Study) 96
Jack Cuzick

HRT Opposed by Low Dose Tamoxifen (HOT Study). Rationale and Design 104
Andrea Decensi, Arianna Galli, Umberto Veronesi

4 Secondary Prevention of Breast Cancer: The Mammography Controversy

Is Mammography Screening for Breast Cancer Really Not Justifiable? 115
Anthony B. Miller

How Reliable is the Evidence for Screening Mammography? 129
Stephen A. Feig

Political Interpretation of Scientific Evidence –
Case Study of Breast Cancer Screening Policies Around the World 140
Gad Rennert

5 Chemoprevention of Skin and Lung Cancer

Skin Cancer Chemoprevention: Strategies to Save our Skin 151
Janine G. Einspahr, G. Timothy Bowden, David S. Alberts

Chemoprevention of Non-Melanoma Skin Cancer:
Experience with a Polyphenol from Green Tea 165
*Kenneth G. Linden, Philip M. Carpenter,
Christine E. McLaren, Ronald J. Barr, Pamela Hite,
Joannie D. Sun, Kou-Tung Li, Jaye L. Viner,
Frank L. Meyskens*

Chemoprevention of Lung Cancer: New Directions 172
Eva Szabo, Thea Kalebic

Key Issues in Lung Cancer Chemoprevention Trials of New Agents 182
*Stephen Lam, Calum MacAulay, Jean C. LeRiche,
Adi F. Gazdar*

6 Prevention and Screening of Prostate Cancer

Prevention of Prostate Cancer 199
Claude C. Schulman, Alexandre R. Zlotta

Clinical Models for Testing Chemopreventative Agents
 in Prostate Cancer and Overview of SELECT:
 The Selenium and Vitamin E Cancer Prevention Trial 212
Eric A. Klein

Problems with Prostate Specific Antigen Screening: A Critical Review 226
Hans-Peter Schmid, Ladislav Prikler, Axel Semjonow

7 Prevention and Screening of Colorectal Cancer

Genetic Predisposition as a Basis for Chemoprevention,
 Surgical and Other Interventions in Colorectal Cancer 235
*Hansjakob Müller, Martina Plasilova, Anna Marie Russell,
 Karl Heinimann*

Fecal Occult Blood (FOB) Screening – Trial Evidence, Practice and Beyond 248
Gad Rennert

Is FOB-Screening Really the Answer for Lowering Mortality
 in Colorectal Cancer? 254
Philippe Autier, Peter Boyle, Marc Buyse, Harry Bleiberg

Summary and Conclusions..... 264
Rudolf Morant
