Chemistry of the Hypothalamic Hormones

Survey of the Structure, Synthesis and Biological Activity of Hypothalamic Releasing and Inhibiting Hormones by A.V. Schally, D.H. Coy, A. Arimura, J. Vilchez, T.W. Redding, and A.J. Kastin, Louisiana	1
LH-RH Analogues Containing Glutamine and Glutamic Acid by W. König, J. Sandow, and R. Geiger, Hoechst	13
Modern Concepts on the Structure-Activity Relationships and the Mechanism of Action of Gonadotropin-Releasing Hormone and its Superactive Analogues by R.M.G. Nair, J. Sagel, J.A. Colwell, R.S. Mathur, J.M. Powers, J.L. Luborsky-Moore, and W.C. Worthington (Jr.), Charleston	21
Perspectives and New Results on Hypothalamic Releasing and Inhibiting Hormones by K. Folkers, R. Knudsen, Y.K. Lam, J. Humphries, Y.P. Wan, C.Y. Bowers, W. Frick, G.D. Daves (Jr.), D.F. Barofsky, and E. Barofsky, Austin/New Orleans/Beaverton	47
Radioactive Labelling of Peptide Hormones by P. Fromageot, P. Pradelles, J.L. Morgat, and H. Levine, Gif-sur-Yvette	59
High-Pressure Liquid Chromatography of Peptide Hormones by H. Bauer, C. Bürvenich, S. Fuchs, E. Kraas, and W. Voelter, Tübingen	77
Field Desorption Mass Spectrometry of TRH Derivatives and Related Oligopeptides by I. Lüderwald, M. Przybylski, H. Ringsdorf, D. Silberhorn, K. Zech, and W. Voelter, Mainz/Tübingen	85
Synthetic Routes to TRH Derivatives of the General Structure [Pro-NH-R] ³ -TRH by S.Fuchs, H. Kalbacher, K. Zech, and W. Voelter, Tübingen	93
CD Studies on TRH and Related Molecules: The Problem of Evaluation of CD Spectra with Particular Reference to Amino Acids and Peptides by A. Attanasio, S. Fuchs, E. Pietrzik, and W. Voelter, Tübingen	109
Comparison of Log-Dose-Response Curves of TRH and TRH Derivatives by W. Klingler, H. Kalbacher, K. Zech, W. Voelter, F.J. Seif, and P. Göbel, Tübingen	121
Leucine-Enkephalin: Its Synthesis and Effects on Circulating Levels of LH and FSH by E. Pietrzik, D. Gupta, H. Kalbacher, M. Eichner, K.-P. Zeller, and W. Voelter, Tübingen	129
Structure-Activity Studies on Thyroliberin and Melanostatin by H. Sievertsson, S. Castensson, S. Björkman, and C.Y. Bowers, Uppsala/Louisiana	145
Synthetic Approaches to Proposed Growth Hormone-Releasing Hormone (GH-RH) by S. Bajusz, Budapest	165
On the Biosynthesis of Putative Neurophysin-Vasopressin Precursors in the Hypothalamo-Neurohypophyseal Gland of the Guinea Pig by I.S. Mendelson and R. Walter, Chicago	185

Physiological Control of Hypothalamic Hormone Secretion

Intrauterine Development of the Hypothalamic Pituitary-Gonadal Axis by <i>B.T. Donovan, London</i>	199
Hypothalamic Control of Mammalian Sexual Maturation by <i>S.M. McCann and S.R. Ojeda, Dallas</i>	221
Modulation of LH-RH Action by Gonadal Steroids by <i>F. Labrie, J. Drouin, L. Lagacé, and L. Ferland, Quebec</i>	235
An Appraisal of the Male Hypothalamo-Hypophyseal-Gonadal Axis in the Rat During Sexual Maturation by <i>D. Gupta and M. Eichner, Tübingen</i>	257
Hypothalamic Secretion of Neurohormones and Their Localization in and Release from Subcellular Particles by <i>J.C. Porter, A. Barnea, R.L. Eskay, J. Warberg, C. Oliver, C.R. Parker (Jr.), and N. Ben-Jonathan, Dallas</i>	287
Physiological Studies with Highly Active Analogues of LH-RH by <i>J. Sandow, W. v. Rechenberg, W. König, M. Hahn, G. Jerzabek, and H. Fraser, Hoechst/Dundee</i>	307
A New LH-RH Analogue: [D-Ser (But) ⁶] LH-RH-(1-9)-Nonapeptide Ethylamide by <i>W. Wiegelmann, H.G. Solbach, H.K. Kley, E. Nieschlag, K.H. Rüdorff, and H.L. Krüskemper, Düsseldorf</i>	327
Pharmacological Alteration of CRH-ACTH Activity by <i>J. Girard, J.B. Baumann, S. Graf, G. van Hees, H.G. Haas, and H.J. Wyss, Basle</i>	335
Purification of the Gonadotropin-Releasing Hormone Receptor Protein by Affinity Chromatography by <i>J.C. Zolman and L.J. Valenta, Irvine</i>	353
Effect of Synthetic LH-RH on Pituitary and Serum Levels of Gonadotropins in Normal and Cyproterone Acetate-Treated Male Rats During Sexual Maturation by <i>M. Eichner, A. Gundling, K. Rager, W. Voelter, and D. Gupta, Tübingen</i>	365
Influence of Long Term Administration of Dihydrotestosterone and Androstenediol on the Serum and Pituitary Levels of Gonadotropins in Male Rats by <i>K. Rager, M. Rohr, M. Eichner, M. Gutwinski, H. Hemreck, H. Mayerhofer, and D. Gupta, Tübingen</i>	377
Effects of Certain Analogues of Synthetic Luteinizing Hormone-Releasing Hormone on Luteinizing Hormone and Follicle-Stimulating Hormone Release in the Anestrous Ewe by <i>D.B. Crighton, Nottingham</i>	387
Hypothalamic Control of Pars Intermedia Melanophore Stimulating Hormone (MSH) Secretion by <i>M.D. Davis and M.E. Hadley, Tucson</i>	395
The Inhibition of ACTH Release in Isolated Pituitary Cells by Somatostatin and by MSH-Inhibiting Factor (MIF) by <i>K.H. Voigt, H.L. Fehm, and R.E. Lang, Ulm</i>	403

Immunological Aspects of Hypothalamic Hormones

Release of Immunoreactive LH-RH from Hypothalamic Nerve-Endings; Effects of Gonadal Steroids and Cyclic Nucleotides by <i>G.W. Bennett and J.A. Edwardson, London</i>	409
--	-----

In Vivo Immunological Studies with Antisera to LH-RH and TRH in the Female Rat	
<i>by B. Kerdelhué, G. Mayer, and M. Juřisz, Gif-sur-Yvette/Bordeaux</i>	425
Enzymatic Degradation of Thyrotropin-Releasing Hormone in Serum and Tissue Homogenates	
<i>by T.J. Visser, W. Klootwijk, R. Docter, and G. Hennemann, Rotterdam</i>	437
Experience with a Radioimmunoassay for LH-RH in Rat Hypothalamus and Human Serum	
<i>by M. Shahmanesh, D.A. Verghese, J. McGill, D. Goldie, and M. Hartog, Shiraz/Bristol</i>	457
The Development of a Radioimmunoassay for Somatostatin	
<i>by B. Pimstone, S. Kronheim, and M. Berelowitz, Cape Town</i>	465
Somatostatin in Tissues, Synaptosomes and Biological Fluids as Measured by Radioimmunoassay	
<i>by M. Berelowitz, S. Kronheim, and B.L. Pimstone, Cape Town</i>	471

Clinical Implications of Hypothalamic Hormones

Hypophyseal Hormone Secretion in Disturbances of Hypothalamic-Pituitary-Gonadal Axis	
<i>by P. Franchimont and H. Burger, Liege/Melbourne</i>	487
Gonadotropin-Releasing Hormone Therapy in Hypothalamic-Pituitary Dysfunction	
<i>by G.M. Besser and C.H. Mortimer, London</i>	497
Evaluation of the Pituitary-Gonadal Axis in Males: Use of Synthetic Gonadotropin-Releasing Hormone and its Superactive Analogue	
<i>by R.S. Mathur, J. Sagel, H.O. Williamson, J.A. Colwell, and R.M.G. Nair, Charleston</i>	509
Patterns of Pituitary Hormone Secretion During Prolonged Intravenous Infusions of LH-RH and TRH in Normal Subjects and Various Pituitary-Gonadal Disorders	
<i>by W.J. Bremner, H.G. Burger, R.M. Abreu, and D.M. de Kretser, Melbourne</i>	529
Use of Hypothalamic Hormones in Paediatrics	
<i>by J.C. Job, J.L. Chaussain, P.E. Garnier, and M. Roger, Paris</i>	543
Evaluation of the Reproductive System in Amenorrhea	
<i>by A.E. Schindler, E. Keller, R. Göser, E. Friedrich, A. Etzrodt, H.G. Bohnet, J.P. Hanker, H.P.G. Schneider, F. Butz, and H.I. Wyss, Tübingen/Aachen/Ulm/Münster/Basle</i>	565
LH-RH TRH Combined Test in Patients with Secondary Amenorrhea	
<i>by P.G. Crosignani, G.C. Lombroso, A. Attanasio, L. Trojsi, A.D'Alberon, and E. Reschini, Milan</i>	577
Gonadotropin Secretion after D-Leu⁶-des-Gly¹⁰-GN-RH-Ethylamide in Normal Human Males and in Prepubertal Boys	
<i>by J. Happ, M. Depper, Th. Weber, F. Kollmann, U. Krause, and J. Beyer, Mainz/Frankfurt</i>	589
The Hormonal Response to the Administration of LH-Releasing Hormone and TSH-Releasing Hormone in Pregnancy and the Puerperium	
<i>by I.M. Spitz, N. Laufer, J.G. Schenker, and E. Rosen, Jerusalem</i>	599
Statistical Approaches for Standardizing LH-RH Tests	
<i>by E. Keller, E. Friedrich, H.I. Wyss, H.P.G. Schneider, and A.E. Schindler, Tübingen/Aachen/Basle/Münster</i>	609

A Mathematical Assessment of the Pituitary Responsiveness under Synthetic LH-RH Stimulus	
<i>by A.F. Attanasio, A.L. Attanasio, M. Rohr, M. Eichner, R. Leitz, W. Voelter, and D. Gupta, Tübingen</i>	617
The Possible Role of Dopaminergic Depletion in the Pathogenesis of Cushing's Disease	
<i>by S.W.J. Lamberts, H.A.T. Timmermans, and J.C. Birkenhäger, Rotterdam</i>	633
The Effect of Estrogen Administration on the Prolactin Response to Chlorpromazine in Isolated Gonadotropin Deficiency and Ovarian Failure	
<i>by I.M. Spitz, E. Rosen, J. Schenker, and W.Z. Polishuk, Jerusalem</i>	639
The TRH Test: Applications in Paediatrics	
<i>by M. Ranke, K. v. Puttkamer, K. Rager, and J.R. Bierich, Tübingen</i>	649
A Psychological Double Blind Study of the Psychotropic Effect of TRH in Normal Subjects	
<i>by H.H. Janzik, I. Schmitz, K. Mayer, W. Voelter, K. Zech, K. v. Puttkamer, and D. Gupta, Tübingen</i>	661
Effects of Synthetic Releasing Hormones (TRH and LH-RH) on Plasma Prolactin, Growth Hormone, LH and FSH Levels in Normal Subjects and Patients with Chromophobe Adenomas and Acromegaly	
<i>by E. Bozadjieva, A. Maleeva, G. Savov, V. Ankov, E. Naidenoff, and N. Visheva, Sofia</i>	669
Gn-RH and TRH Stimulated hGH Secretion in Active and Inactive Acromegaly	
<i>by K. v. Werder and R. Fahlbusch, Munich</i>	677
Effects of Somatostatin on Leucocyte Response and Granulation Tissue in Man and Rats	
<i>by E. Zierden, K. Hengst, and H. Wagner, Münster</i>	685
Plasma Renin Activity and Aldosterone Responses to Orthostatism and Furosemide During Somatostatin Infusion in Humans	
<i>by E. Mancheño, R. Gracia-Robles, L.M. Ruilope, J. Rodriguez, E. Lopez-Vidriero, M. Arroyo, J.C. Prieto, J. Torres, and A. Oriol-Bosch, Madrid</i>	695
