

Contents

Part I General Concepts

1	Introduction	3
1.1	What Is Cinderella?	3
1.2	What Is New in Cinderella.2	20
1.3	Technical Background	23
1.4	Installation and Updating	25
2	Theoretical Background	27
2.1	Problems in Interactive Geometry	27
2.2	Projective Geometry	30
2.3	Homogeneous Coordinates	31
2.4	Complex Numbers	32
2.5	Measurements and Complex Numbers	35
2.6	The Principle of Continuity	39
3	Quick-Start Tutorials	41
3.1	Pappus's Theorem	42
3.2	A Three-Bar Linkage	51
3.3	Kepler Ellipses	56
3.4	Scripting the Seeds of a Sunflower	58

Part II Cinderella Reference

4	Interactive Geometry with Cinderella	67
4.1	The Main Menu	67
4.2	The Toolbars	69
4.3	General Tools	70
4.4	Move Mode	71
4.5	Interactive Modes	74
4.6	Definition Modes	84
4.7	Measurements	93
4.8	Special Modes	97
4.9	Conic Operations	110
4.10	Polygons	112
4.11	Geometries	114

4.12	Views	116
4.13	Transformation Modes	122
4.14	Setting a Basis	138
4.15	Iterated Function Systems	141
4.16	Transformation Groups	145
5	The Inspector	153
5.1	A General Overview	153
5.2	The Info Block	155
5.3	Inspecting Appearance	156
5.4	Traces, Arrows, Rendering	160
5.5	Controlling the Views	163

Part III CindyLab Reference

6	Introduction to CindyLab	167
6.1	Simulating Masses and Forces	167
6.2	Cinderella and Physics	169
6.3	CindyLab and CindyScript	170
6.4	The Elements of CindyLab	172
6.5	Starting a Physics Simulation	173
6.6	The Environment	174
7	CindyLab Objects	175
7.1	Free Mass	175
7.2	Velocity	178
7.3	Gravity	180
7.4	Sun	183
7.5	Magnetic Field	185
7.6	Rubber Band	187
7.7	Spring	189
7.8	Coulomb Force	194
7.9	Floor	194
7.10	Bouncer	196
7.11	Environment	197
7.12	Many-Particle Systems	201
7.13	Animations and CindyLab	205
7.14	Geometry and CindyLab	208
7.15	Scripting Physical Environments	212

Part IV CindyScript Reference

8	CindyScript Fundamentals	219
8.1	General Concepts of CindyScript	220
8.2	Entering Program Code	225
8.3	Variables and Functions	229
8.4	Accessing Geometric Elements	234
9	Programming	243
9.1	Control Operators	243

9.2	Arithmetic Operators	248
9.3	Boolean Operators	253
9.4	String Operators	257
9.5	String Comparison and Sorting	261
10	Lists and Linear Algebra	263
10.1	Using Lists in CindyScript	263
10.2	Elementary List Operations	265
10.3	Advanced List Operations	268
10.4	Lists of Geometric Elements	271
10.5	Vectors and Matrices	271
11	Drawing	281
11.1	Appearance of Objects	282
11.2	Elementary Drawing Functions	285
11.3	Function Plotting	291
11.4	Texts and Tables	309
11.5	TeX Rendering	313
11.6	Image Manipulation and Rendering	322
11.7	Shapes	336
11.8	The Coordinate System of CindyScript	340
11.9	The Appearance and Basis Stack	344
11.10	Layers	344
12	Geometric Operators	349
12.1	Lists and Coordinates	349
12.2	Elementary geometric operators	349
12.3	Useful Linear Algebra Operators	351
12.4	Conversion and Typing	351
12.5	Geometric Transformations and Bases	352
13	Calculus	355
13.1	Derivatives and Tangents	355
13.2	Advanced calculations	357
14	Music Support: Syntherella	361
14.1	MIDI Functions	362
14.2	Single Tones	366
14.3	Melodies	367
14.4	Sound characteristics	373
14.5	Three Little Pieces	375
14.6	Sampled-Audio Functions	377
15	Special Operators	381
15.1	Interaction with Geometry	381
15.2	File Management	385
15.3	Console Output	388
15.4	Timing and Animations	389
15.5	User Input	391
15.6	Interaction with CindyLab	394

15.7	Entering CindyScript Code	395
16	Tiny Code Examples	401
Part V Advanced Topics		
17	Copy, Paste and Macros	415
17.1	Copy/Paste	415
17.2	Redefine	417
17.3	Creating own Tools	418
18	Creating Interactive Webpages	419
18.1	Glossary	419
18.2	Exporting Plain Examples	420
18.3	Exporting Animations	421
18.4	Creating Interactive Exercises	422
18.5	Post-Processing	422
18.6	Legal Issues	422
19	Scribbling	423
19.1	Creating Elements	423
19.2	Gestures	425
19.3	Customizing the Scribble Mode	426
20	Extensions	427
20.1	Plugins	427
20.2	JavaScript	430
20.3	Interactive Exercises	433
20.4	Multitouch Support	438
20.5	Mathe-Vital	442
20.6	Visage: Visualization of Graph Algorithms	443
Index		447
References		457
