

Table of contents

References	259
Author's Index	7
Foreword	11
1 Sports Science	13
1.1 Overview Articles	13
How to breed for elite Show Jumper	13
Feeding the Show Jumper	25
How do we recognize elite Show Jumpers	45
Skeletal muscle profile of Show Jumpers	57
The Work of a national Show Jumper equipe veterinarian	77
How can the rider help Show Jumpers to have better performances	79
1.2 Articles	91
Plasma parathyroid hormone concentration in horses after long term exercise	91
Three dimensional kinematic analysis of jumping horses: A preliminary study	95
Effects of different types of exercise and training on plasma catecholamines in young horses	103
Takeoff mechanics of olympic show jumper horses over a fan jump	107
Fibre type composition of the gluteus medius compared with the semitendinosus muscle of Dutch warmblood foals and the effect of exercise	109
Effect of performance success on blood β -endorphin, ACTH and cortisol levels in show jumping horses	113
Neuronal coordination during jumping in the horse	117
Enzyme patterns in muscles and half life periods of intravenous injected, homologous muscular enzymes in horses	123
Effect of photobiological oxidation of blood on plasma lactate levels, arterial partial pressure of oxygen, and running time of Thoroughbred horses	127
Oxidative stress and antioxidant systems in horses	131
Effects of exercise on plasma haptoglobin composition in control and splenectomized Thoroughbred horses	137
Exercise capacity and post-exercise blood lactate disappearance	141
Post-partum bone and collagen markers in Arabian mares and foals	145
The left ventricular mass measurement through guided M-mode echocardiography in the horse	149
The effect of velocity on temporal variables of equine walk	155

Long-term pasture housing mineral deposition in the third metacarpus of previously stalled weanlings	157
Cardiac parameters of the evaluation of performance in the athlete horse	161
Plasma cortisol progressive response during standardised exercise test on treadmill	165
Changes in plasma PTH and calcium during different types of exercise and training in young horses	169
Test to assess temperament in foals: individual consistency	173
Immunobiology of equine muscle healing	177
2 Internal Medicine	181
2.1 Articles	181
Incidence of hemosiderophages in bronchoalveolar lavage fluid of horses with chronic obstructive pulmonary disease (COPD)	181
Equine polysaccharide storage myopathy: differential diagnosis with unspecific exertional rhabdomyolysis	187
Transendoscopic laser surgery of the exercise-induced dorsal displacement of the soft palate (DDSP) in horses	195
Evaluation of career racetrack performance in 52 Thoroughbreds treated for laryngeal neuropathy with prosthetic laryngoplasty	197
3 Orthopedics	201
3.1 Overview Articles	201
Alteration of locomotion in horses with vertebral lesions	201
Lameness in the elite Show Jumper	211
Benefits of non-focalised CO ₂ laser in horses	221
Joint repair in the equine athlete	229
3.2 Articles	245
The oral bioavailability of chondroitin sulfate in horses – a pilot study	245
Clinical and ultrasonographic findings of sport horses afflicted with injuries of tendons and ligaments after treatment with extracorporeal shock waves (ESW)	249
Epidemiological survey of tarsus alterations in horses	253
