

Table of Contents

LumberJack: Intelligent Discovery and Analysis of Web User Traffic Composition	1
<i>Ed H. Chi, Adam Rosien, Jeffrey Heer</i>	
Mining eBay: Bidding Strategies and Shill Detection.....	17
<i>Harshit S. Shah, Neeraj R. Joshi, Ashish Sureka, Peter R. Wurman</i>	
Automatic Categorization of Web Pages and User Clustering with Mixtures of Hidden Markov Models	35
<i>Alexander Ypma, Tom Heskes</i>	
Web Usage Mining by Means of Multidimensional Sequence Alignment Methods	50
<i>Birgit Hay, Geert Wets, Koen Vanhoof</i>	
A Customizable Behavior Model for Temporal Prediction of Web User Sequences	66
<i>Enrique Frías-Martínez, Vijay Karamcheti</i>	
Coping with Sparsity in a Recommender System	86
<i>André Bergholz</i>	
On the Use of Constrained Associations for Web Log Mining	100
<i>Hui Yang, Srinivasan Parthasarathy</i>	
Mining WWW Access Sequence by Matrix Clustering	119
<i>Shigeru Oyanagi, Kazuto Kubota, Akihiko Nakase</i>	
Comparing Two Recommender Algorithms with the Help of Recommendations by Peers	137
<i>Andreas Geyer-Schulz, Michael Hahsler</i>	
The Impact of Site Structure and User Environment on Session Reconstruction in Web Usage Analysis.....	159
<i>Bettina Berendt, Bamshad Mobasher, Miki Nakagawa, Myra Spiliopoulou</i>	
Author Index	181
