Invited Contribution

Typechecking for Semistructured Data	1
<i>Dan Suciu (University of Washington)</i>	

Semistructured Data

Optimization Properties for Classes of Conjunctive Regular Path Queries	21
<i>Alin Deutsch, Val Tannen (University of Pennsylvania)</i>	
View-Based Query Answering and Query Containment over Semistructured Data	40
<i>Diego Calvanese, Giuseppe De Giacomo, Maurizio Lenzerini (Università di Roma), Moshe Y. Vardi (Rice University)</i>	
Model-Checking Based Data Retrieval	62
<i>Agostino Dovier (Università di Udine), Elisa Quintarelli (Politecnico di Milano)</i>	

OLAP and Data Mining

A Temporal Query Language for OLAP: Implementation and a Case Study	78
<i>Alejandro A. Vaisman (Universidad de Buenos Aires), Alberto O. Mendelzon (University of Toronto)</i>	
Attribute Metadata for Relational OLAP and Data Mining	97
<i>T.H. Merrett (McGill University)</i>	
On Monotone Data Mining Languages	119
<i>Toon Calders (University of Antwerp), Jef Wijsen (University of Mons-Hainaut)</i>	

XML

Reasoning about Keys for XML	133
<i>Peter Buneman, Susan Davidson (University of Pennsylvania), Wenfei Fan (Bell Laboratories), Carmem Hara (Universidade Federal do Parana), Wang-Chiew Tan (University of Pennsylvania)</i>	
TAX: A Tree Algebra for XML	149
<i>H.V. Jagadish (University of Michigan), Laks V.S. Lakshmanan (University of British Columbia), Divesh Srivastava (AT&T Labs-Research), Keith Thompson (University of Michigan)</i>	

A Rule-Based Querying and Updating Language for XML	165
<i>Wolfgang May (Universität Freiburg)</i>	

Spatial Databases

Linear Approximation of Semi-algebraic Spatial Databases Using Transitive Closure Logic, in Arbitrary Dimension	182
<i>Floris Geerts (University of Limburg)</i>	
A Theory of Spatio-temporal Database Queries	198
<i>Floris Geerts, Sofie Haesevoets, Bart Kuijpers (University of Limburg)</i>	

Systems, Schema Integration, Index Concurrency

An Application-Specific Database	213
<i>Kathleen Fisher, Colin Goodall, Karin Högstedt, Anne Rogers (AT&T Labs)</i>	
A Model Theory for Generic Schema Management	228
<i>Suad Alagić, Philip A. Bernstein (Microsoft Research)</i>	
View Serializable Updates of Concurrent Index Structures	247
<i>Stavros Cosmadakis (University of Patras), Kleoni Ioannidou (University of Toronto), Stergios Stergiou (University of Athens)</i>	

User Languages

SQL4X: A Flexible Query Language for XML and Relational Databases ..	263
<i>Sara Cohen, Yaron Kanza, Yehoshua Sagiv (The Hebrew University)</i>	
ERX-QL: Querying an Entity-Relationship DB to Obtain XML Documents	281
<i>Giuseppe Psaila (Università degli Studi di Bergamo)</i>	

Rules

Optimising Active Database Rules by Partial Evaluation and Abstract Interpretation	300
<i>James Bailey (University of Melbourne), Alexandra Poulouassilis (University of London), Simon Courtenage (University of Westminster)</i>	
Simulation of Advanced Transaction Models Using GOLOG	318
<i>Iluju Kiringa (University of Toronto)</i>	

Author Index	343
