

TABLE OF CONTENTS

Single Particle Properties of Nuclei	
H.A. Weidenmuller	1
Single-Nucleon Removal Energies	
G.J. Wagner	16
Effective Interactions in Nuclei	
M.W. Kirson	58
Proton, Gamma Angular Correlations near Analogue	
Resonances in the Mass 90 Region	
Z. Vager	74
Analogue Resonances - Some Aspects of Reaction Mechanism	
and Spectroscopy Revisited	
J.P. Wurm	86
The Shape of the Fission Barrier	
H.J. Specht	105
Common Aspects in Fission and Heavy Ion Reactions	
K. Dietrich	129
Determination of Nuclear Deformations from Inelastic Scattering	
of Heavy Ions Near the Coulomb Barrier	
D. Pelte and U. Smilansky	148
Hyperfine Interactions in Highly Ionized Atoms	
G. Goldring	178
Measurement of Electric Quadrupole Moments by the	
Perturbed Angular Correlation Technique	
E. Bodenstein	197
Stopping Power Effects in Nuclear Lifetime Measurements	
C. Broude	218

VIII

Status of the Darmstadt Project

P. Armbruster 236

The New Accelerator Facility in Rehovot

G. Goldring 254

Some New Developments in Direct Reactions Induced

by Heavy Ions

W. von Oertzen 267
