VII Preface

Stanley, C.A.; De León, D.D. (Philadelphia, Pa.)

- 1 Historical Perspective on the Genetic Forms of Congenital Hyperinsulinism**
Stanley, C.A.; Matschinsky, F.M. (Philadelphia, Pa.)
- 7 Biochemistry and Physiology of the ATP-Sensitive Potassium Channel**
Remedi, M.S.; Nichols, C.G. (St. Louis, Mo.)
- 18 Pathophysiology of Diffuse ATP-Sensitive Potassium Channel Hyperinsulinism**
De León, D.D.; Stanley, C.A. (Philadelphia, Pa.)
- 30 Molecular Defects of ATP-Sensitive Potassium Channels in Congenital Hyperinsulinism**
Shyng, S.-L.; Bushman, J.D.; Pratt, E.B.; Zhou, Q. (Portland, Oreg.)
- 43 Molecular Mechanisms and Clinical Pathophysiologies of Focal ATP-Sensitive Potassium Channel Hyperinsulinism and Beckwith-Wiedemann Syndrome**
Arnoux, J.-B.; Verkarre, V.; Rossignol, S.; Aigrain, Y.; de Lonlay, P. (Paris)
- 57 Pancreatic Histopathology of Hyperinsulinism**
Suchi, M. (Milwaukee, Wisc.); Bhatti, T.R.; Ruchelli, E.D. (Philadelphia, Pa.)
- 71 Localization of a Focal Lesion of Congenital Hyperinsulinism: Imaging and Surgery**
States, L.J.; Adzick, N.S. (Philadelphia, Pa.)
- 79 Role of Incretin Hormones in Hyperinsulinemic Hypoglycemia**
De León, D.D. (Philadelphia, Pa.)
- 87 Glutamate Dehydrogenase: Structure, Regulation, and Its Role in Insulin Homeostasis**
Smith, T.J. (Saint Louis, Mo.)
- 100 Congenital Hyperinsulinism Due to Activating Mutations of Glutamate Dehydrogenase: The Hyperinsulinism/Hyperammonemia Syndrome**
Kelly, A.; Palladino, A.; Stanley, C.A. (Philadelphia, Pa.)
- 112 Amino Acid-Stimulated Insulin Secretion: The Role of the Glutamine-Glutamate-Alpha-Ketoglutarate Axis**
Li, C.; Matschinsky, F.M.; Stanley, C.A. (Philadelphia, Pa.)
- 125 Tissue Specificity of Glutamate Dehydrogenase as Illustrated in Pancreatic Beta-Cells and the Central Nervous System**
Carobbio, S.; Vetterli, L.; Frigerio, F.; Karaca, M.; Maechler, P. (Geneva)

- 137 The Molecular Genetics and Pathophysiology of Congenital Hyperinsulinism Caused by Short-Chain 3-Hydroxyacyl-CoA Dehydrogenase Deficiency**
Molven, A.; Helgeland, G.; Sandal, T.; Njølstad, P.R. (Bergen)
- 146 Hyperinsulinism Due to Activating Mutations of Glucokinase**
Sayed, S.; Matschinsky, F.M.; Stanley, C.A. (Philadelphia, Pa.)
- 158 Hyperinsulinism Due to Mutations of Uncoupling Protein 2**
del Mar Gonzalez-Barroso, M. (Paris/Madrid); de Lonlay, P.; Ricquier, D. (Paris)
- 172 Exercise-Induced Hyperinsulinism: A Failure of Monocarboxylate Transporter 1 Expression Silencing**
Otonkoski, T. (Helsinki); Meissner, T. (Düsseldorf)
- 182 *HNF4A* and Hyperinsulinemic Hypoglycemia**
Kapoor, R.R.; James, C.T.; Hussain, K. (London)
- 191 Author Index**
- 192 Subject Index**
