

Table of Contents

General Introduction

LCM Virus Research, Retrospect and Prospects	
E. Traub	3

Lymphocytic Choriomeningitis Virus

*The Virus: Purification, Chemical and Physical Properties,
Complement-Fixing Antigen (s)*

Chairman: I. R. Pedersen

LCM Virus: Its Purification and its Chemical and Physical Properties	
I. R. Pedersen	13
Antigenic Properties of the LCM Virus: Virion and Complement-Fixing Antigen	
H. H. Gschwender and F. Lehmann-Grube	25
Electron Microscopy of LCM Virus-Infected L Cells	
Kl. Mannweiler and F. Lehmann-Grube	37

*Interaction of LCM Virus with Cells, Including New Virus-Induced
Cellular Antigens*

Chairman: F. Lehmann-Grube

Antigenic Alteration of Cells in Vitro Infected with LCM Virus	
G. Rutter and H. H. Gschwender	51
In Vitro Correlates of LCM Virus-Induced Immune Response	
G. A. Cole, R. A. Prendergast, and C. S. Henney	61
Histocompatibility and Lymphocytic Choriomeningitis Virus Infection	
O. A. Holtermann and Jeaninne A. Majde	73

VIII

Persistent Infection in Vitro and in Vivo, Including Interference Phenomena

Chairman: J. Hotchin

Cyclical Transient Infection, An Explanation of Persistent Virus Infection J. Hotchin	85
Plaque Assays and Current Concepts of Regulation in Arenavirus Infections C. J. Pfau, R. M. Welsh, and R. S. Trowbridge	101
Inapparent Infection of Syrian Hamsters with the Virus of Lymphocytic Choriomeningitis U. Förster and G. Wachendörfer	113
Congenital LCM Virus Infection in "Germ-Free" Haas Strain Mice M. Pollard and Nehama Sharon	121
LCM Virus-Induced Hemopoietic Disorder in Mice and its Role in the Induction of Tolerance K. Bro-Jørgensen and M. Volkert	129
Murine LCM Virus Infection: Tolerance and Immunity J. Hannover Larsen	139
Inhibition of Mouse Tumors and Viruses by the M-P Strain of LCM Virus M. Padnos and N. Molomut	151

Acute and Chronic LCM Disease in Man and Animals

Chairman: C. A. Mims

Acute and Chronic LCM Disease C. A. Mims	167
On the Pathogenesis of LCM Disease: Effects of Immunosuppression with Anti-Lymphocyte Serum C. Lundstedt	175
Thymus-Dependent (T) Cell Competence in Chronic LCM Virus Infection M. B. A. Oldstone	185
Pathogenesis of LCM Disease in the Rat A. A. Monjan, G. A. Cole, and N. Nathanson	195
In Vitro Measurement of the Time Course of Cellular Immunity to LCM Virus in Mice O. Marker and M. Volkert	207

IX

LCM Disease of the Adult Rat: Morphological Alterations of the Brain J. Löhler, G. Schwendemann, and F. Lehmann-Grube	217
Epidemiologic Aspects of Lymphocytic Choriomeningitis in Man R. Ackermann	233

Other Arenaviruses

Hemorrhagic Fever Group

Chairman: K. M. Johnson

Biology of Tacaribe-Complex Viruses K. M. Johnson, Patricia A. Webb, and G. Justines	241
Biophysical and Biochemical Studies of Pichinde Virus W. E. Rawls, Blanca A. Ramos, and M. F. Carter	259
Ultrastructural Studies of Arenaviruses F. A. Murphy, Sylvia G. Whitfield, Patricia A. Webb, and K. M. Johnson	273
Tamiami Virus-Induced Immunopathological Disease of the Central Nervous System D. H. Gilden, H. M. Friedman, Christina O. Kyj, R. A. Roosa, and N. Nathanson	287
The Pathogenesis of Tamiami Virus Meningoencephalitis in Newborn Mice W. C. Winn, Jr., F. A. Murphy, and Mary R. Flemister	299
Behavior of Machupo and Latino Viruses in <i>Calomys callosus</i> from Two Geographic Areas of Bolivia Patricia A. Webb, K. M. Johnson, C. J. Peters, and G. Justines	313

Lassa Fever Virus

Chairman: J. Casals

Lassa Fever Virus J. Casals and Sonja M. Buckley	325
