

List of Contents

W. ARBER	
Evolution of Prokaryotic Genomes	1
P. REDFORD and R.A. WELCH	
Extraintestinal <i>Escherichia coli</i> as a Model System for the Study of Pathogenicity Islands	15
A.G. TORRES and J.B. KAPER	
Pathogenicity Islands of Intestinal <i>E. coli</i>	31
M. INGERSOLL, E.A. GROISMAN, and A. ZYCHLINSKY	
Pathogenicity Islands of <i>Shigella</i>	49
R.A. KINGSLEY and A.J. BÄUMLER	
Pathogenicity Islands and Host Adaptation of <i>Salmonella</i> Serovars	67
E. CARNIEL	
Plasmids and Pathogenicity Islands of <i>Yersinia</i>	89
P.P. REEVES and L. WANG	
Genomic Organization of LPS-Specific Loci	109
B. BARRETT, L. EBAH, and I.S. ROBERTS	
Genomic Structure of Capsular Determinants	137
U. DOBRINDT, U. HENTSCHEL, J.B. KAPER, and J. HACKER	
Genome Plasticity in Pathogenic and Nonpathogenic Enterobacteria	157
F. VON WINTZINGERODE, G. GERLACH, B. SCHNEIDER, and R. GROSS	
Phylogenetic Relationships and Virulence Evolution in the Genus <i>Bordetella</i>	177
K. LARBIG, C. KIEWITZ, and B. TUMMLER	
Pathogenicity Islands and PAI-Like Structures in <i>Pseudomonas</i> Species.	201
Subject Index	213

List of Contents

of Companion Volume 264/II

S. ODENBREIT and R. HAAS <i>Helicobacter pylori</i> : Impact of Gene Transfer and the Role of the <i>cag</i> Pathogenicity Island for Host Adaptation and Virulence	1
U. VOGEL and M. FROSCH The Genus <i>Neisseria</i> : Population Structure, Genome Plasticity, and Evolution of Pathogenicity.	23
J.I. ROOD Genomic Islands of <i>Dichelobacter nodosus</i>	47
K. HEUNER, M. STEINERT, R. MARRE and J. HACKER Genomic Structure and Evolution of <i>Legionella</i> Species. . .	61
C. GENTRY-WEEKS, P.S. COBURN, and M.S. GILMORE Phages and Other Mobile Virulence Elements in Gram-Positive Pathogens	79
A.-B. KOLSTØ, D. LERECLUS, and M. MOCK Genome Structure and Evolution of the <i>Bacillus cereus</i> Group	95
J. KREFT, J.-A. VÁZQUEZ-BOLAND, S. ALTROCK, G. DOMINGUEZ-BERNAL, and W. GOEBEL Pathogenicity Islands and Other Virulence Elements in <i>Listeria</i>	109
J.F. KIM and J.R. ALFANO Pathogenicity Islands and Virulence Plasmids of Bacterial Plant Pathogens	127
G. KOHLER, J. MORSCHHÄUSER, and J. HACKER Genome Structure of Pathogenic Fungi	149
D.A. ROWE-MAGNUS, J. DAVIES, and D. MAZEL Impact of Integrons and Transposons on the Evolution of Resistance and Virulence.	167
Subject Index	189
