<b>1</b>	<b>Introduction: On the Necessity and Meaningfulness of a Health Ethnology Perspective in Health Literacy Research . . . . .</b>	<b>1</b>
<b>Part I State of Research and the Need for a Health Ethnology Perspective</b>		
<b>2</b>	<b>Health Literacy in the Context of Health Inequalities: A Framing and a Research Review . . . . .</b>	<b>15</b>
2.1	Definitional Approaches to Health Literacy . . . . .	21
2.2	Measurement or Recording of Health Literacy . . . . .	25
2.3	The Relationship Between Health Literacy and Health Outcomes . . . . .	28
2.4	Distribution of Health Literacy in the Population . . . . .	29
2.5	Social Determinants of Health Literacy . . . . .	31
<b>3</b>	<b>Health Literacy in Childhood and Adolescence and the Need for Family Health Literacy . . . . .</b>	<b>37</b>
3.1	Child and Adolescent Health in the Context of Family Social Inequality . . . . .	39
3.1.1	Findings of German Health Reporting on Unequal Child and Youth Health . . . . .	42
3.1.2	Health Inequalities and the Migration Background of Children and Adolescents . . . . .	43
3.2	Health Literacy of Young People . . . . .	46
3.2.1	The Heterogeneity of Instruments Used to Measure Health Literacy in Children and Adolescents . . . . .	50

---

3.2.2	Health Literacy of 11- to 15-Year-Old Adolescents in Germany . . . . .	51
3.2.3	Effects of Adolescent Health Literacy . . . . .	68
3.3	Health Literacy of Children and Family Health Literacy . . . . .	72
3.4	Child and Adolescent Health and Digital Health Literacy . . . . .	78
3.4.1	Definitions of eHealth Literacy . . . . .	80
3.4.2	eHealth Literacy as Social Practice . . . . .	82
3.4.3	eHealth Literacy and the Relationship to Social and Health Inequalities . . . . .	84
3.4.4	The Measurement of eHealth Literacy . . . . .	86
<b>4</b>	<b>Health Literacy of Adolescents and Families from a Health Ethnology Perspective: A Theoretical Framing . . . . .</b>	<b>89</b>
4.1	Critique of (Empirical) Health Literacy Research in Adolescents, Children and Families . . . . .	90
4.1.1	Critique of the Lone Informed Health Decision . . . . .	91
4.1.2	The (Underestimated) Importance of the Context of Action for Health Literacy . . . . .	94
4.1.3	Health Literacy and the One-Dimensionality of Inequality Determination . . . . .	96
4.2	Remarks on the Multidimensionality of Inequality from a Sociological and Philosophical Perspective . . . . .	97
4.3	The Difference Perspective as Overcoming the Deficit Perspective? . . . . .	104
4.3.1	Three Variants of a Difference Theory Perspective in Public Health . . . . .	106
4.4	The Dialectic of Deficit and Difference as a Theoretical Framework for Health Literacy Research . . . . .	111
<b>5</b>	<b>The Ethnographic Study of Health Literacy: Methodological Notes . . . . .</b>	<b>119</b>
5.1	Ethnographic Research in Public Health and Health Literacy Research . . . . .	120
5.1.1	Health Literacy as Social Practice: Methodological Approaches . . . . .	122
5.2	Approaches to Health-Related Ethnographic Research . . . . .	123
5.3	Research Projects and the Identification of Target Groups . . . . .	125
5.4	Recruitment . . . . .	129

**Part II Case Studies**

<b>6</b>	<b>Health Understanding and Health Competences of Two Girls with a Turkish Migration Background . . . . .</b>	<b>133</b>
6.1	Introduction . . . . .	133
6.1.1	Health of the Turkish Migrant Population . . . . .	134
6.2	The “Guest Worker” . . . and His/Her Health . . . . .	136
6.3	People with a Turkish Migration Background in Germany: Facts and Figures . . . . .	138
6.3.1	Education and Vocational Training . . . . .	139
6.3.2	Household Structure and Household Income . . . . .	141
6.3.3	Religion/Beliefs . . . . .	142
6.3.4	The Internet as an Information Platform . . . . .	143
6.3.5	Health of People with a Turkish Migration Background in Germany . . . . .	144
6.3.6	A Summary of the State of Research . . . . .	146
6.4	Ethnographic Milieu Study on Health Literacy: Using the Example of Female Adolescents with a Turkish Migration Background in Germany . . . . .	147
6.4.1	The Political Discourse About Turkey in the Lifeworld of Leyla and Meryem . . . . .	148
6.4.2	The German-Turkish Relationship Yesterday . . . . .	149
6.4.3	The German-Turkish Relationship Today . . . . .	150
6.4.4	The Socio-economic Framework Within the Lifeworld Environment of Leyla and Meryem . . . . .	154
6.4.5	Health-Relevant Significance of the Social Network and Religious/Cultural Norms and Values in the Everyday Life of the Young People . . . . .	156
6.5	Health, Health Literacy and Health Behaviour of Female Adolescents with a Turkish Migration Background: Summary and Overarching Motives . . . . .	161
6.5.1	What You See When You Look Differently: The Example of Young Women with a Turkish Migration Background . . . . .	163
6.5.2	Some Final Overarching Themes . . . . .	164

<b>7</b>	<b>The Health Literacy of Male Adolescent Refugees from Afghanistan and the Exploration of Existing Scope for Action . . .</b>	<b>167</b>
7.1	Introduction . . . . .	167
7.2	The Significance of Afghanistan in the Context of Global Forced Migration . . . . .	169
7.3	Flight and Displacement and Health Consequences . . . . .	175
7.4	The Young People Accompanied . . . . .	178
7.5	Selected Results of Ethnographic Field Research and Qualitative Interviews . . . . .	182
7.5.1	Overall Assessment of the Network: Differences, Deficits and Social Capital . . . . .	182
7.5.2	Health Perceptions and Health References . . . . .	185
7.5.3	Digital Everyday Life, Digital Health Literacy and Its Ambivalence . . . . .	187
7.5.4	The Identification of (Possible) Health-Related Competences . . . . .	191
7.5.5	Further Developments After the Official End of the Field Phase . . . . .	193
7.6	Discussion . . . . .	194
<b>8</b>	<b>Health, Health Literacy and Health Socialisation in Swiss Families with Young Children and a Latin American Migration Background . . . . .</b>	<b>199</b>
8.1	Introduction . . . . .	199
8.2	The Health of Migrants in Switzerland . . . . .	201
8.3	People from Latin America in Switzerland . . . . .	204
8.4	The Theoretical Approaches and Methodology of the ELiS Study . . . . .	207
8.5	Considerations of Health-Related Framing and Family Health Literacy in Families with Young Children and a Latin American Migrant Background . . . . .	215
8.5.1	Between Destroyed Cultural Capital and the Will to Integrate . . . . .	216
8.5.2	The Understanding of Health in Families with a Latin American Migration Background . . . . .	221
8.5.3	Family Health Literacy and Migrant Family Health Socialisation . . . . .	224
8.6	Conclusion . . . . .	231

**Part III    Outlook**

**9    What Do You See When You Look Differently? On the Insight  
Potential of Ethnographic Health Literacy Research . . . . . 235**

9.1    The Relationship Between Analogue and Digital Health Literacy  
      Among Young People (with a Migration Background) . . . . . 237

9.2    Family Health Literacy (Narrow and Broad) . . . . . 238

9.3    Concluding Remarks . . . . . 241

**Appendices . . . . . 243**

**References . . . . . 245**
