- X Preface to the 6th Edition
- XII Preface to the 5th Edition
- XIII Information for Users

## 1–118 Head and Neck

- 2–20 Skull
- 21–31 Bones of the skull
- 32–33 Temporomandibular joint and hyoid bone
- 34–38 Muscles of the scalp and face
- 39–41 Cervical fascia and spreading of inflammation in the neck
- 42–45 Muscles of the neck
- 46–47 Oral cavity
- 48–55 Teeth and facial skeleton
- 56–57 Deciduous dentition
- 58–59 Salivary glands and tonsils
- 60–61 Tongue
- 62–67 Pharynx
- 68–71 External nose and nasal cavity
- 72–77 Sections and tomograms of the face
- 78–83 Larynx
- 84–85 Thyroid gland
- 86–89 Sections and tomograms of the neck
- 90–94 Blood vessels of the head and neck
  - 95 Lymph vessels and lymph nodes of the head and neck
- 96–97 Cutaneous innervation of the head and neck
- 98–104 Nerves and blood vessels of the face
- 105–115 Nerves and blood vessels of the neck
- 116–117 Peripharyngeal space

## 119–186 Thoracic Viscera

- 120 Mediastinum and thymus
- 121–123 Esophagus
- 124–126 Trachea and bronchi
- 127–133 Lungs, bronchial tree and bronchopulmonary segments
  - 134 Aortic arch and its branches
- 135–137 Pulmonary arteries and bronchial tree
- 138–139 Pericardial sac
- 140–143 Heart and large blood vessels
- 144–147 Sections and tomograms of the heart
- 148–155 Inner cavities and valves of the heart
- 156–157 Conducting system of the heart and myocardium
- 158–159 *Projection of the heart and mitral stenosis*
- 160–166 Arteries and veins of the heart
- 167–171 Thoracic organs
- 172–179 Sections and tomograms of the thoracic organs
- 180–183 Large blood vessels and lymph vessels in the mediastinum
- 184–185 Autonomic nervous system in the thorax and neck

## 187–288 Abdominal and Pelvic Viscera

- 188–189 Peritoneal cavity
- 190 Surface projections of abdominal viscera
- 191–197 Stomach, small intestine, colon and rectum
- 198–205 Liver, segmentation of the liver, gall bladder and bile duct system
- 206–207 Pancreas and spleen
- 208–213 Viscera of the upper and lower abdomen
- 214–223 Blood vessels and lymph nodes in the abdominal region
- 224–227 Large intestine and posterior abdominal wall
- 228–239 Kidneys, suprarenal glands, renal pelvis and ureter
- 240–241 Great blood vessels in the retroperitoneal space
- 242–247 Sections and tomograms of the abdominal viscera
- 248–249 Lumbosacral plexus
- 250–251 Great blood vessels in the lower retroperitoneal space and pelvis
- 252–265 Male and female pelvis with urogenital organs and blood vessels
- 266–267 Blood vessels and nerves of the rectum
- 268–269 Connective tissue of the lesser pelvis
- 270–271 Autonomic nervous system in the retroperitoneal space
- 272–275 Autonomic nervous system in the lesser pelvis
- 276–287 Sections and tomograms of the female and male pelvis

## **289–308 Pelvic Floor and External Genitalia**

- 290–293 Pelvic floor
- 294–295 External genitals of a female
- 296–297 Testis and epididymis
- 298–299 Spermatic cord and inguinal region of a male
- 300–304 External genitals of a male
- 305–307 Blood vessels and nerves of the perineal region

## **309–394 Central Nervous System**

- 310–314 Spinal cord, spinal meninges and blood vessels of the vertebral canal
- 315–329 Cranial meninges and blood vessels of the cranial meninges and the brain
- 330–337 Brain, brain stem and cerebellum
- 338–346 Brain
- 347–349 Cranial nerves
- 350–355 Ventricles of the brain and subarachnoidal space
- 356–357 Fornix, hippocampus and limbic system
- 358 Choroid plexuses
- 359–360 Thalamus, hypothalamus and mid brain
- 361–365 Nuclei of the forebrain and internal capsule
- 366 Cerebellorubral connections
- 367 Visual pathway
- 368–394 Sections and tomograms of the brain

## **395–420 Visual Organ and Orbital Cavity**

- 396–398 Eye, lacrimal apparatus and eyelids
- 399–401 Orbital cavity
- 402–403 Extra-ocular muscles
- 404–409 Eyeball
- 410–415 Contents and topography of the orbital cavity
- 416–419 Sections and tomograms of the orbital cavity

## **421–442 Vestibulocochlear Organ**

- 422–424 External ear and tympanic membrane
- 425–431 Middle ear with mastoid air cells, tympanic cavity, facial nerve canal, auditory tube and auditory ossicles
- 432–437 Bony and membranous labyrinth with the inner ear
- 438–441 Sections and tomograms of the petrous part of the temporal bone

## **443–451 Indexes of Eponyms**

- 444 Alphabetical index of common used eponyms
- 450 Alphabetical index of anatomical terms with corresponding eponyms

## **453–493 Subject Index**
