

Contents

Abhishek Barwar, Prateek Kala, Rupinder Singh

1 3D-printed smart functional prototypes as sensors and actuators for robotic applications — 1

Minhaz Husain, Rupinder Singh, Bahadur Singh Pabla, Seema Ramniwas, Ranvijay Kumar

2 Biomimetic-based 3D-printed smart implants — 17

Minhaz Husain, Rupinder Singh, Bahadur Singh Pabla

3 3D-printed self-energized energy storage device for biomedical applications — 37

Vinay Kumar, Nishant Ranjan, Rupinder Singh, Inderpreet Singh Ahuja

4 4D printing of smart thermoplastic composites for online health monitoring — 57

Bharat Kalia, Rupinder Singh, J. Paulo Davim

5 Development of 3D metal-printed smart dental implants — 77

Gurwinder Singh, Rupinder Singh, Minhaz Husain, Vinay Kumar

6 3D metal printing of partially absorbable smart orthopedic implant — 101

Minhaz Husain, Rupinder Singh, Arvind Kumar, J. Paulo Davim

7 Metastructure-based metal 3D printing for innovative application — 123

Gurwinder Singh, Rupinder Singh, Minhaz Husain, Vinay Kumar, J. Paulo Davim

8 Partially absorbable 3D-printed implant for health monitoring — 141

Ankush Mehta, Rupinder Singh, Bahadur Singh Pabla

9 Smart foot sensors by 3D bioprinting — 155

Ranvijay Kumar, Rupinder Singh, Vishal Thakur, Deepika Kathuria, Seema Ramniwas

10 3D-printed stockings for controlled drug delivery — 167

Vishal Thakur, Ranvijay Kumar, Rupinder Singh

11 3D printing-based smart solutions to boost the circular economy — 181

Kanwer Ajit Singh, Amrinder Pal Singh, Rupinder Singh, Yang Wei

**12 Life cycle analysis for economic and environmental justification
of 3D-printed smart functional prototypes — 199**
