

Table of Contents

Keynote Address

<i>H. Billing</i> On the Development of Digital Memories	1
---	---

Electromagnetic Storage

<i>E. Köster</i> Magnetic Data Recording	11
---	----

<i>P. Wentzel</i> Electromechanical Mass Storage Units – Disk Files	33
--	----

<i>K. Winkler</i> Electromagnetic Mass Storages – Normal Tape Devices	53
--	----

<i>E. Lennemann</i> Tape Libraries with Automatic Reel Transport	65
---	----

Semiconductor Memories

<i>A. Moeller</i> Fabrication Technology and Physical Fundamentals of Components Used for Semiconductor Memories	77
--	----

<i>R. Mitterer</i> LSI Semiconductor Memories	97
--	----

<i>U. G. Baitinger and R. Remshardt</i> A High Performance Low Power 2048-Bit Memory Chip in MOSFET Technology and Its Application	105
--	-----

<i>K. Horninger</i> Readout Methods and Readout Circuits for Dynamik Charge-Storage Elements	121
--	-----

<i>W. K. Liebmann</i> Monolithic Memories	135
<i>H. J. Harloff</i> Structure, Organization and Applications of CCD Memories	147
<i>C. Schünemann</i> BEAMOS – Technology and Applications	161
Read-Only Memories	
<i>J. Scharbert</i> Read-Only Memories with Magnetic Components or with Integrated Semiconductor Circuits	173
<i>R. G. Müller</i> Electrically Alterable MOS-ROMs, with Particular Emphasis on the Floating Gate Type	189
Magnetic Bubble Memories	
<i>F. H. de Leeuw</i> Physical Principles of Magnetic Bubble Domain Memory Devices	203
<i>W. Metzdorf</i> Application of the Josephson Effect for Digital Storage	217
<i>H. Deichelmann</i> Ferromagnetic Domain Memories	239
Low Temperature Memories	
<i>P. Wolf</i> Application of the Josephson Effect for Digital	247
Optical Memories	
<i>E. Krätzig</i> Materials for Optical Data Stores	261

<i>B. Hill</i> Optical Memory Systems	273
--	-----

Reliability

<i>W. Hilberg</i> Effects of Defects on Yield, Integration, Cost and Reliability of Large Scale Integrated Semiconductor Memories. — A Tutorial Review	291
--	-----

<i>D. Fischer</i> Reliability of Semiconductor Memories from a Practical Point of View	321
---	-----

<i>H.-J. Penzel</i> Application of Partially Defective Semiconductor Memory Devices in Memory Systems	339
---	-----

Memory / Storage Systems

<i>H.-O. Leilich</i> Access Methods and Associative Memories	351
---	-----

<i>W. Motsch</i> Increased Chip Capacity and Extended Logical Complexity of LSI-Associative Memories	361
--	-----

<i>C. Schünemann and W. G. Spruth</i> Storage Hierarchy Technology and Organization	377
--	-----

<i>A. Lehmann and D. Schmid</i> The Performance of Small Cache Memories in Minicomputer Systems with Several Processors	391
---	-----

Summary of Abstracts	409
-----------------------------	-----

The Authors, the Editor	417
--------------------------------	-----
