Managing Agile Processes

XP after Enron – Can It Survive?	1
<i>Mike Holcombe</i>	
Trailing-Edge Management	9
<i>David Putman</i>	
Value Based Management and Agile Methods	16
<i>John Favaro</i>	
Lean Management – A Metaphor for Extreme Programming?	26
<i>Michela Dall'Agnol, Andrea Janes, Giancarlo Succi, and Enrico Zaninotto</i>	

Methodology Issues

Metaphor Design Spaces	33
<i>Martin Lippert, Axel Schmolitzky, and Heinz Züllighoven</i>	
An Experiment Working with RUP and XP	41
<i>Patricio Letelier, José H. Canós, and Emilio A. Sánchez</i>	
Bridging Cognitive and Social Chasms in Software Development Using Extreme Programming	47
<i>Orit Hazzan and Yael Dubinsky</i>	
A System Dynamics Simulation Model to Find the Effects of XP on Cost of Change Curve	54
<i>S. Kuppuswami, K. Vivekanandan, and Paul Rodrigues</i>	

Extending Agile Methodologies and XP

Real-Time Extreme Programming	63
<i>Craig Gelowitz, Ian Sloman, Luigi Benedicenti, and Raman Paranjape</i>	
Software Development under Stringent Hardware Constraints: Do Agile Methods Have a Chance?	73
<i>Jussi Ronkainen and Pekka Abrahamsson</i>	
Maturing XP through the CMM	80
<i>Jonas Martinsson</i>	
Formal Extreme (and Extremely Formal) Programming	88
<i>Ángel Herranz and Juan José Moreno-Navarro</i>	

Methods and Tools

Agile Development Using Naked Objects	97
<i>Richard Pawson and Vincent Wade</i>	
XPSwiki: An Agile Tool Supporting the Planning Game	104
<i>Sandro Pinna, Simone Mauri, Paolo Lorrai, Michele Marchesi, and Nicola Serra</i>	
CruiseControl.NET: Continuous Integration for .NET	114
<i>R. Owen Rogers</i>	
Tool Support for Complex Refactoring to Design Patterns	123
<i>Carmen Zannier and Frank Maurer</i>	

Teaching and Introducing Agile Methodologies

Experiences in Learning XP Practices: A Qualitative Study	131
<i>Bjørnar Tessem</i>	
Swimming around the Waterfall: Introducing and Using Agile Development in a Data Centric, Traditional Software Engineering Company	138
<i>Donald Howard</i>	
Cross-Continent Development Using Scrum and XP	146
<i>Bent Jensen and Alex Zilmer</i>	
Coaching Coaches	154
<i>Görel Hedin, Lars Bendix, and Boris Magnusson</i>	

Testing

Where Do Unit Tests Come from?	161
<i>Jing Yuan, Mike Holcombe, and Marian Gheorghe</i>	
Three Patterns in Java Unit Testing	170
<i>Eric Nickell and Ian Smith</i>	
XP with Acceptance-Test Driven Development: A Rewrite Project for a Resource Optimization System	180
<i>Johan Andersson, Geoff Bache, and Peter Sutton</i>	
A Customer Test Generator for Web-Based Systems	189
<i>Rick Mugridge, Bruce MacDonald, and Partha Roop</i>	
A Framework for Testing at the Edge – An Experience Report	198
<i>Alwin Ibba and Carsten Ohlemeyer</i>	

Pair Programming

- An Empirical Analysis on the Discontinuous Use of Pair Programming . . . 205
Andrea Janes, Barbara Russo, Paolo Zuliani, and Giancarlo Succi
- Pair-Programming Effect on Developers Productivity 215
Sven Heiberg, Uno Puus, Priit Salumaa, and Asko Seeba
- When Does a Pair Outperform Two Individuals? 225
Kim Man Lui and Keith C.C. Chan

Other XP Practices

- Being Jane Malkovich: A Look Into the World of an XP Customer 234
Angela Martin, James Noble, and Robert Biddle
- Using Actual Time: Learning How to Estimate 244
Piergiuliano Bossi
- Coaching a Customer Team 254
David Hussman
- Extreme Design by Contract 261
Yishai A. Feldman
- Inline Method Considered Helpful: An Approach to Interface Evolution . . . 271
Tammo Freese

Experience Reports

- Practical Experiences of Agility in the Telecom Industry 279
Jari Vanhanen, Jouni Jartti, and Tuomo Kähkönen
- XP – Call in the Social Workers 288
Tim Mackinnon
- Embracing Change: An XP Experience Report 298
Andrew M. Fuqua and John M. Hammer
- Extreme Makeover: Bending the Rules to Reduce Risk
 Rewriting Complex Systems 307
Sharon Johnson, Jia Mao, Eric Nickell, and Ian Smith

Research Reports: Methods and Tools

- Component-Oriented Agile Software Development 315
Zoran Stojanovic, Ajantha Dahanayake, and Henk Sol
- Unit Testing beyond a Bar in Green and Red 319
Rudolf Ramler, Gerald Czech, and Dietmar Schlosser

Developing Testable Web-Applications with Bugkilla	322
<i>Christian Dedek, Dirk M. Sohn, Matthias Niete, Sabine Winkler, and Andreas Spall</i>	
Extreme Programming: A More Musical Approach to Software Development?	325
<i>Andrew Johnston and Chris S. Johnson</i>	
Automated Extract Component Refactoring	328
<i>Hironori Washizaki and Yoshiaki Fukazawa</i>	
Successful Automation of GUI Driven Acceptance Testing	331
<i>Charles Lowell and Jeremy Stell-Smith</i>	
Extreme Terseness: Some Languages Are More Agile than Others	334
<i>Stephen Taylor</i>	
EnterpriseXP: Can the Combination of XP and DSDM Improve the Appeal of XP to the Business Community?	337
<i>Mark Simmonds and Barry Fazackerley</i>	
Using Function Points in XP – Considerations	340
<i>Andrew M. Fuqua</i>	
Refactoring with Aspects	343
<i>Granville Miller</i>	
Research Reports: Experience Reports	
Extreme Programming at Work	347
<i>Walter Ambu and Fabrizio Gianneschi</i>	
Combining Agile Practices with UML and EJB: A Case Study in Agile Development	351
<i>Richard Paige, Priyanka Agarwal, and Phillip Brooke</i>	
Practice Makes Perfect	354
<i>Sharifah Syed-Abdullah, Mike Holcombe, and Marian Gheorghe</i>	
A Designing Practice and Two Coding Practices for Extreme Programming (XP)	357
<i>Mustafa Yıldız and Selahattin Kuru</i>	
Practical Aspects of XP Practices	360
<i>Teodora Bozheva</i>	
Scaling Extreme Programming in a Market Driven Development Context	363
<i>Daniel Karlström and Per Runeson</i>	

Building Standard ERP Software Packages Using Self-developed Agile Methodologies	366
<i>Andrea Rinaldi and Luigi Benedicenti</i>	

Convincing the Inconvincible	369
<i>Geoff Oliphant</i>	

Comparing Extreme Programming to Traditional Development for Student Projects: A Case Study	372
<i>John Noll and Darren C. Atkinson</i>	

XP: Good for Anything Other than Software Development?	375
<i>Hans Dermot Doran</i>	

Extreme Educational Symposium

Using Instructor Written Acceptance Tests Using the Fit Framework	378
<i>Daniel H. Steinberg</i>	

Teaching Team Work: An Extreme Week for First-Year Programmers.....	386
<i>Petra Becker-Pechau, Holger Breitling, Martin Lippert, and Axel Schmolitzky</i>	

Design-led & Design-less: One Experiment and Two Approaches	394
<i>Francisco Macias, Mike Holcombe, and Marian Gheorghe</i>	

Agile Teaching of an Agile Software Process	402
<i>Vieri Del Bianco and Giordano Sassaroli</i>	

Five Challenges in Teaching XP	406
<i>Rick Mugridge, Bruce MacDonald, Partha Roop, and Ewan Tempero</i>	

Challenges in Teaching Test Driven Development	410
<i>Rick Mugridge</i>	

Filleting XP for Educational Purposes	414
<i>Friedrich Steimann, Jens Gößner, and Thomas Mück</i>	

Using XP with Children for Learning Mathematics	418
<i>Maria A. Droujkova and Dmitri A. Droujkov</i>	

Using Metaphors in eXtreme Programming Projects	420
<i>Yael Dubinsky and Orit Hazzan</i>	

Ph.D. Symposium

Doctoral Symposium at XP 2003	422
<i>Paul Grünbacher</i>	

Collaboration on Software Tasks	423
<i>Hans Gallis</i>	
Unit Testing Using Design by Contract and Equivalence Partitions	425
<i>Per Madsen</i>	
Exploring the XP Customer Role	427
<i>Angela Martin</i>	
Extending Testability for Automated Refactoring	429
<i>Bartosz Walter</i>	
Software Configuration Management for Test-Driven Development	431
<i>Tammo Freese</i>	
A Study on Introducing XP to a Software Development Company	433
<i>Harald Svensson</i>	
Teaching eXtreme Programming in a Project-Based Capstone Course	435
<i>Yael Dubinsky</i>	
Mitigating Risks in Mobile System Development	437
<i>Norbert Seyff</i>	
Extreme Advertised Bidding	439
<i>Peter Regner and Thomas Wiesinger</i>	
Software Effort Estimation: Planning XP Guidelines Compared to Research on Traditional Software Development	441
<i>Kjetil Moløkken</i>	
Collecting Data in Web Service Development	443
<i>Alberto Sillitti</i>	
Measuring the Effectiveness of Agile Methodologies Using Data Mining, Knowledge Discovery and Information Visualization	445
<i>Andrea Janes</i>	
Evaluation of New Software Engineering Methodologies	447
<i>Marco Scotti</i>	
Evaluation of Product Metrics Applied to Agile Methodologies	449
<i>Matteo Canessa</i>	

Panels

Coaching for Agile and Xtreme Practices – <i>A Fishbowl with Piranhas</i>	451
<i>Steven Fraser, Rachel Reinitz, Jutta Eckstein, Joshua Kerievsky, Erik Lundh, Rob Mee, and Mary Poppendieck</i>	

XP Practices versus Values?	455
<i>Alan C. Francis, Steven Fraser, Bill Caputo, Michael Cusumano, Mike Hill, and Andrew Swan</i>	
Test Driven Development (TDD)	459
<i>Steven Fraser, Kent Beck, Bill Caputo, Tim Mackinnon, James Newkirk, and Charlie Poole</i>	
Author Index	463
