

Contents

1	Introduction to Genetic Algorithms	1
1.1	What Is Evolutionary Computation?	2
1.2	Basic Principles of Evolutionary Computation	6
1.2.1	Introduction to GA	6
1.2.2	Introduction to GP	10
1.3	Why GA and GP?	15
2	Advanced Topics in Evolutionary Computation	19
2.1	Multi-objective Optimization	20
2.1.1	Risk or Return?	20
2.2	Memes and Memetic Algorithms	25
2.2.1	Memes – The Cultural Genes	25
2.2.2	Can the Meme Survive in the World of Finance?	27
2.2.3	The Memetic Algorithm	28
2.2.4	Baldwinian Evolution	30
2.2.5	Baldwin Effects on FX Trading Rule Optimization	34
2.3	Real-Valued GAs	38
2.3.1	Differential Evolution	38
2.3.2	Particle Swarm Optimization	45
2.4	Randomness Issues in Evolutionary Computation	51
2.4.1	Tree Generation for Genetic Programming	52
2.4.2	Experiments with Predicting Time-Series Data	55
3	Financial Engineering	61
3.1	Basic Concepts in Financial Engineering	62
3.1.1	The Technical and Fundamental Approaches	62
3.1.2	Market Elements	63
3.1.3	Technical Trading Concepts	63
3.2	Price Prediction	64
3.2.1	Option Pricing and the Black–Scholes Formula	64
3.3	Trend Analysis	69

3.3.1	Strategies for Trend Analysis	70
3.3.2	Overview of Technical Indicators	70
3.4	Automated Stock Trading	76
3.5	Portfolio Optimization	77
3.5.1	Problem Definition	78
3.5.2	Evolutionary Approaches to Portfolio Optimization	82
4	Predicting Financial Data	85
4.1	Methods for Time Series Prediction	85
4.2	STROGANOFF	89
4.2.1	GMDH Process in STROGANOFF	89
4.2.2	Crossover in STROGANOFF	94
4.2.3	Mutation in STROGANOFF	95
4.2.4	Fitness Evaluation in STROGANOFF	95
4.2.5	Recombination Guidance in STROGANOFF	95
4.2.6	STROGANOFF Algorithm	97
4.3	Application to Financial Prediction	98
4.3.1	STROGANOFF Parameters and Experimental Conditions	98
4.3.2	GP Parameters and Experimental Conditions	99
4.3.3	Validation Method	99
4.3.4	Experimental Results	101
4.3.5	Comparative Experiment with Neural Networks	105
4.4	Inductive Genetic Programming	106
4.4.1	Polynomial Neural Networks	107
4.4.2	PNN Approaches	107
4.4.3	Basic IGP Framework	111
4.4.4	PNN vs. Linear ARMA Models	112
4.4.5	PNN vs. Neural Network Models	114
4.4.6	PNN for Forecasting Cross-Currency Exchange Rates	116
4.5	Challenging Black–Scholes Formula	119
4.6	Is the Precise Prediction Really Important?	120
5	Trend Analysis	123
5.1	The Data Classification Problem	124
5.2	The MVGPC	127
5.2.1	Classification by Genetic Programming	127
5.2.2	Majority Voting System	133
5.3	Applying MVGPC to Trend Analysis	137
5.4	MVGPC Extension	139
6	Trading Rule Generation for Foreign Exchange (FX)	141
6.1	Automated Trading Methods Using Evolutionary Computation ...	142
6.1.1	Applications of GA and GP	142
6.1.2	Application of PSO and DE	144

6.2	Price Prediction Based Trading System	145
6.2.1	Trend Prediction	145
6.2.2	Generating Trading Rules	146
6.2.3	Experimental Results	148
6.3	The GA-GP Trading System	149
6.3.1	Why Optimize Indicators' Parameters?	149
6.3.2	Fitness Function	150
6.3.3	Implementation of the GA-GP System	152
6.3.4	Practical Test of the GA-GP System	158
6.4	Using DE and PSO for FX Trading	162
6.4.1	Moving Average Feature Based Trading System	163
6.4.2	Dealing Simulation.....	168
7	Portfolio Optimization	175
7.1	A Simple GA for Portfolio Optimization	178
7.1.1	Genome Representation	179
7.1.2	Evolutionary Operators	180
7.1.3	Selection Method	181
7.1.4	Fitness Function	183
7.1.5	Testing the Array-Based GA	184
7.2	MTGA - GA Representation for Portfolio Optimization	187
7.2.1	Main Strategies of the MTGA	188
7.2.2	Implementation of the MTGA	189
7.2.3	Hybridization Policy	194
7.2.4	Test-Driving the MTGA	195
7.3	Implementation Issues for Portfolio Optimization	198
7.3.1	Dynamic Data and Portfolio Rebalancing	198
7.3.2	Asset Lots and Portfolio Weighting	199
7.3.3	Trader Policies	200
7.3.4	Alternative Risk and Return Measures	201
A	Software Packages	203
A.1	Introduction	203
A.2	Multi-objective Optimization by GA	203
A.3	Time Series Prediction by GP	207
A.4	Majority Voting GP Classification System	208
A.5	STROGANOFF Time Series Prediction and System Identification ..	209
A.6	Portfolio Optimization Testing Suite	214
B	GAGPTrader	219
B.1	System Requirements	219
B.2	Preparing the GAGPTrader for Installation	220
B.2.1	Meta Trader 4 Demo Account	223
B.3	GAGPTrader Trial Version Installation	224

B.4	Setting Up the GAGPTrader Trial Version	227
B.5	Parameters	230
B.6	Output Log	232
B.7	Description of the Symbols Used in the Charts	233
	References	235
