

Contents

Chapter 1: Service Robots in Everyday Environments: Where Are We? Where Are They?

Editorial	3
<i>Erwin Prassler</i>	

Chapter 2: System Architecture

Editorial	9
<i>Martin Hägele, Paul G. Plöger</i>	

Robot Hardware Design in the DESIRE Project	11
<i>Florian Vohr, Till May</i>	

Component Based Architecture for an Intelligent Mobile Manipulator	19
<i>Paul G. Plöger, Kai Pervözl, Christoph Mies, Patrick Eyerich, Michael Brenner, Bernhard Nebel</i>	

Chapter 3: Task Planning and Execution Control

Editorial	45
<i>Bernhard Nebel</i>	

Using the Context-Enhanced Additive Heuristic for Temporal and Numeric Planning	49
<i>Patrick Eyerich, Robert Mattmüller, Gabriele Röger</i>	

Proactive Continual Planning – Deliberately Interleaving Planning and Execution in Dynamic Environments	65
<i>Michael Brenner, Bernhard Nebel</i>	

Continual Multiagent Planning	77
<i>Michael Brenner, Bernhard Nebel</i>	

Semantic Attachments for Domain-Independent Planning Systems	99
<i>Christian Dornhege, Patrick Eyerich, Thomas Keller, Sebastian Trüg, Michael Brenner, Bernhard Nebel</i>	
Task Planning for an Autonomous Service Robot	117
<i>Thomas Keller, Patrick Eyerich, Bernhard Nebel</i>	
Chapter 4: Self-modeling, Monitoring and Adaptation for Manipulation Robots	
Editorial	127
<i>Wolfram Burgard</i>	
Body Schema Learning	131
<i>Jürgen Sturm, Christian Plagemann, Wolfram Burgard</i>	
Chapter 5: Perception	
Editorial	165
<i>Gisbert Lawitzky</i>	
Semi Automatic Object Modeling for a Service Robot	167
<i>Alexander Kasper, Zhixing Xue, Rüdiger Dillmann</i>	
Scene Analysis for Service Robots	181
<i>Robert Eidenberger, Thilo Grundmann, Martin Schneider, Wendelin Feiten, Michael Fiebert, Georg v. Wichert, Gisbert Lawitzky</i>	
Exploiting RFID Capabilities Onboard a Service Robot Platform	215
<i>Thomas Kämpke, Boris Kluge, Matthias Strobel</i>	
Face Detection and Person Identification on Mobile Platforms	227
<i>Uwe Handmann, Sebastian Hommel, Michael Brauckmann, Michael Dose</i>	
Range-Based People Detection and Tracking for Socially Enabled Service Robots	235
<i>Kai O. Arras, Boris Lau, Slawomir Grzonka, Matthias Lubert, Oscar Martinez Mozos, Daniel Meyer-Delius, Wolfram Burgard</i>	
3D Environment Modeling Based on Surface Primitives	281
<i>Michael Ruhnke, Bastian Steder, Giorgio Grisetti, Wolfram Burgard</i>	
Rule Set Based Joint State Update	301
<i>Thilo Grundmann, Michael Fiebert, Wolfram Burgard</i>	

Chapter 6: Mobility, Manipulation and Grasping in Everyday Environments

Editorial 329
Rainer Bischoff, J. Marius Zöllner

Advanced Robot Manipulation

Flexible Control of Complex Kinematic Chains 331
Rainer Bischoff, Günter Schreiber, Bernd Finkemeyer, Yevgen Kogan, Marinus Danzer, Johannes Kurth

Dual-Arm Manipulation 353
Thomas Wimböck, Christian Ott

Motion Planning and Navigation

Motion Planning Using a ToF Camera for Manipulation in Cluttered Environments 367
Zhixing Xue, Jens Kühnle, Steffen W. Rühl, Rüdiger Dillmann

Navigation in Landmark Networks 379
Thomas Kämpke, Boris Kluge, Matthias Strobel

Grasping and Grasp Planning

An Automatic Grasp Planning System for Multi-fingered Robotic Hands 391
Zhixing Xue, Steffen W. Rühl, J. Marius Zöllner, Rüdiger Dillmann

A High-Speed Tactile Sensor for Slip Detection 403
Carsten Schürmann, Matthias Schöpfer, Robert Haschke, Helge Ritter

Identifying Relevant Tactile Features for Object Identification 417
Matthias Schöpfer, Michael Pardowitz, Robert Haschke, Helge Ritter

Grasping Objects of Unknown Geometry with Tactile Feedback 431
Robert Haschke, Matthias Schöpfer, Helge Ritter

Chapter 7: Interactive Robot Teaching

Editorial 443
Robert Haschke, Helge Ritter

Event-Oriented Incremental Component Construction 445
Ingo Lütkebohle, Sven Wachsmuth

Task-Based Mixed-Initiative Coordination 457
Ingo Lütkebohle, Sven Wachsmuth

Structuring Human-Robot-Interaction in Tutoring Scenarios 471
Julia Peltason, Britta Wrede

A Mixed-Initiative Approach to Interactive Robot Tutoring 483
Ingo Lütkebohle, Julia Peltason, Lars Schillingmann, Christof Elbrechter, Sven Wachsmuth, Britta Wrede, Robert Haschke

Chapter 8: Robot Development Process and Tools

Editorial 505
Ulrich Reiser, Walter Nowak

Robot Development Process in the DESIRE Project 507
Walter Nowak, Ulrich Reiser, Erwin Prassler

DESIRE WEB 2.0 - Integration Management and Distributed Software Development for Complex Service Robots 517
Ulrich Reiser

Author Index 527
