

Table of Contents

	 Foreword	7
	Nicholas J. Conard, Series Editor	
Chapter 1	 Introduction	11
	Archaeological Issues	11
	Basic Structure	13
Chapter 2	 Background and Historical Overview	15
	Historical Overview	15
	Synthesis of stone tool development in the Epipaleolithic	46
Chapter 3	 Geographical and Environmental Setting	49
Chapter 4	 Excavations and Stratigraphy	53
	The Excavation of Baaz	54
	The Excavation of Kaus Kozah	67
	The Excavation of Ain Dabbour	74
	The Excavation of Yabroud Rockshelter III	81
Chapter 5	 Stone Tool Assemblage, Sampling and Analytical Methods	85
	Core Attributes	86
	Primary and core trimming elements	89
	Blank Attributes	91
	Tool Attributes	94
	Baaz	99
	Kaus Kozah	147
	Ain Dabbour	174
	Yabroud	194
	Raw Material	231
	Operational chain of stone tool production	238
	Handedness in stone tool production?	248
	Ground stone tools	252

Chapter 6	 Organic Material	257
	Baaz	257
	Kaus Kozah	259
	Ain Dabbour	260
	Yabroud	260
	Summary	261
Chapter 7	 Radiocarbon Dating	263
	Datings for Baaz	263
	Datings for Kaus Kozah	265
	Datings for Ain Dabbour and Yabroud III	266
Chapter 8	 Comparable Sites	269
	Sites with a PPN occupation	269
	Sites with a Natufian occupation	280
	The Geometric Kebarian sites	297
	The Early Epipaleolithic sites	304
Chapter 9	 Conclusions	311
Chapter 10	 Summary Zusammenfassung Résumé	317
Literature		321
