| <b>Techniques</b>                                                                             | <b>Pathological Findings in the Temporal Bone . . .</b>                  | <b>117</b> |
| Chapter 1                                                                                     | Chapter 8                                                                |            |
| Tomography, Macrosections, Microsections, and Projections . . . . .                           | Congenital Anomalies . . . . .                                           | 119        |
| Tomography of the Temporal Bone . . . . .                                                     | Chapter 9                                                                |            |
| <b>The Normal Temporal Bone . . . . .</b>                                                     | Inflammatory Processes and Cholesteatoma . . . . .                       | 135        |
| Chapter 2                                                                                     | Acute and Subacute Otitis Media . . . . .                                | 136        |
| Horizontal Projection and Horizontal Sections . . . . .                                       | Chronic Otitis Media with Perforation of the Tympanic Membrane . . . . . | 144        |
| Chapter 3                                                                                     | Chronic Otitis Media and Mastoiditis . . . . .                           | 154        |
| Coronal Projection and Coronal Sections . . . . .                                             | Cholesteatoma, Small Epitympanic Type . . . . .                          | 164        |
| Chapter 4                                                                                     | Cholesteatoma, Post Mastoidectomy . . . . .                              | 176        |
| Semiaxial Projection of the Petrous Pyramid and Semiaxial Sections . . . . .                  | Chapter 10                                                               |            |
| Chapter 5                                                                                     | Otosclerosis . . . . .                                                   | 183        |
| Axial Projection of the Petrous Pyramid and Axial Sections . . . . .                          | Otosclerosis, Post-Stapedectomy . . . . .                                | 184        |
| Chapter 6                                                                                     | Histopathology . . . . .                                                 | 190        |
| Sagittal Projection and Sagittal Sections . . . . .                                           | Chapter 11                                                               |            |
| Chapter 7                                                                                     | Pathological Conditions Involving the Internal Auditory Canal . . . . .  | 193        |
| Longitudinal Projection of the Petrous Pyramid (Stenvers) and Longitudinal Sections . . . . . | Exostosis of Posterior Surface of Temporal Bone . . . . .                | 194        |
|                                                                                               | Index . . . . .                                                          | 198        |
