DALT 2011 Papers

Control and Delegation	1
<i>Wiebe van der Hoek</i>	
Plan Indexing for State-Based Plans	3
<i>Louise A. Dennis</i>	
An Integrated Formal Framework for Reasoning about Goal Interactions	16
<i>Michael Winikoff</i>	
Probing Attacks on Multi-Agent Systems Using Electronic Institutions	33
<i>Shahriar Bijani, David Robertson, and David Aspinall</i>	
Detecting Conflicts in Commitments	51
<i>Akın Günay and Pınar Yolum</i>	
Formalizing Commitments Using Action Languages	67
<i>Tran Cao Son, Enrico Pontelli, and Chiaki Sakama</i>	

Best of DALT

Lightweight Coordination Calculus for Agent Systems: Retrospective and Prospective	84
<i>David Robertson</i>	
The Evolution of Interoperability	90
<i>Amit K. Chopra and Munindar P. Singh</i>	
1000 Years of Coo-BDI	95
<i>Viviana Mascardi and Davide Ancona</i>	
A Distributed Architecture for Norm-Aware Agent Societies: A Retrospective	102
<i>Andrés García-Camino, Juan-Antonio Rodríguez-Aguilar, Carles Sierra, and Wamberto W. Vasconcelos</i>	
Speech-Act Based Communication: Progress in the Formal Semantics and in the Implementation of Multi-agent Oriented Programming Languages	111
<i>Alvaro F. Moreira, Renata Vieira, and Rafael H. Bordini</i>	

Specifying and Enforcing Norms in Artificial Institutions:
A Retrospective Review 117
Nicoletta Fornara and Marco Colombetti

A Retrospective on the Reactive Event Calculus and Commitment
Modeling Language 120
Paolo Torroni, Federico Chesani, Paola Mello, and Marco Montali

DALT Spring School 2011

Web Service Composition via Organisation-Based (Re)Planning..... 128
David Corsar, Alison Chorley, and Wamberto W. Vasconcelos

Agent and Multi-Agent Software Engineering: Modelling, Programming,
and Verification (Extended Abstract) 149
Rafael H. Bordini

Author Index..... 153
