

Red wood ants	1.1 Anatomy of a worker	4
	1.2 Sex and caste	8
	1.3 Circulation and respiration	12
	1.4 Nervous and digestive systems	14
	1.5 Glands	16
	1.6 Sex and caste anatomy	18
Nest establishment	2.1 Mating season	20
	2.2 Nuptial flight	24
	2.3 Mating and search for a nest	28
	2.4 Nest establishment	32
Nest construction	3.1 Construction materials	36
	3.2 Nest architecture	40
	3.3 Annual cycle Spring	44
	3.4 Summer	46
	3.5 Autumn	48
	3.6 Winter	50
The explorer	4.1 Forest exploration	52
	4.2 Ants' enemies	54
	4.3 Foraging	60
	4.4 Visual orientation	62
	4.5 Celestial orientation	64
	4.6 Return to the nest	66
Birth of a trail	5.1 Recruiting help	68
	5.2 Birth of an ant trail	76
Food	6.1 Aphid colony	82
	6.2 Enemies and competitors	86
	6.3 Plant food	90
	6.4 Animal food	92
	6.5 Food sharing	94
	6.6 Waste elimination	96
Work division	7.1 Origin of sex and caste	98
	7.2 The life of a reproductive individual	106
	7.3 The life of a worker	108
Nest change	8.1 The attack	112
	8.2 Defense of the nest	116
	8.3 Exploration of the surroundings	120
	8.4 A new nest	122
	8.5 Colony relocation	124
