

Table of Contents

Part I: Invited Paper

Towards Simulation-Aided Design of Multi-Agent Systems	3
<i>Michal Pěchouček, Michal Jakob, and Peter Novák</i>	

Part II: Reasoning

Reinforcement Learning as Heuristic for Action-Rule Preferences	25
<i>Joost Broekens, Koen Hindriks, and Pascal Wiggers</i>	
Towards Reasoning with Partial Goal Satisfaction in Intelligent Agents	41
<i>M. Birna van Riemsdijk and Neil Yorke-Smith</i>	

Part III: Programming Languages

Evaluating Agent-Oriented Programs: Towards Multi-paradigm Metrics	63
<i>Howell R. Jordan and Rem Collier</i>	
Atomic Intentions in Jason ⁺	79
<i>Daniel Kiss, Neil Madden, and Brian Logan</i>	
Software Support for Organised Adaptation	96
<i>Hugo Carr, Alexander Artikis, and Jeremy Pitt</i>	

Part IV: Environments

Action and Perception in Agent Programming Languages: From Exogenous to Endogenous Environments	119
<i>Alessandro Ricci, Andrea Santi, and Michele Piunti</i>	
An Interface for Agent-Environment Interaction	139
<i>Tristan Behrens, Koen V. Hindriks, Rafael H. Bordini, Lars Braubach, Mehdi Dastani, Jürgen Dix, Jomi F. Hübner, and Alexander Pokahr</i>	
Author Index	159
