

Contents

Preface — V

Govindarajan Boopathy, S. Sathish, Mohit Hemanth Kumar

Chapter 1

Introduction to precision manufacturing for micro- and nanofabrication — 1

G. Shanmugasundar

Chapter 2

Principle of precision engineering — 25

Abhishek Kumar, Debabrata Panda, Krunal M. Gangawane

Chapter 3

Microfabrication: techniques and technology — 47

Debabrata Panda, Abhishek Kumar, Krunal M. Gangawane

Chapter 4

Materials for micro- and nanofabrication — 77

Shrikant, Bhooraram, Sangita Gupta

Chapter 5

Transition metal oxide semiconductor materials: properties and applications — 101

M. Arockia Jaswin, R. Geetha, D. Prithiviraj

Chapter 6

Precision manufacturing through cryogenic treatment: a case study — 133

A. Robert Sam, A. Renu Deepthi, G. Anand

Chapter 7

Ferromagnetic composite nanofiber for low magnetic field sensing: a case study — 149

Avishek Mishra, Kamendra Vikram

Chapter 8

Environmental impact, sustainability, and future direction — 163

Index — 173
