

Contents

1 Introduction: The New Cryptogams	1
Burkhard Büdel and Thomas Friedl	
1.1 Oxy-Phototroph Life Forms and Traditional Botany	1
1.2 The <i>New Cryptogams</i> —a Modern Concept for the Non-Vascular Oxy-Phototroph Life Forms	2
1.3 Functional Aspects of <i>New Cryptogams</i> : Hydro-Passivity	6
1.4 The <i>New Cryptogams</i> Predated the Conquest of the Third Dimension on Land	7
1.5 The <i>New Cryptogams</i> and Chapter Selection of This Textbook	7
References	8
2 Endosymbioses: Origin and Diversity of Photosynthetic Eukaryotes and Their General Genetic Exchange Modes	9
Jan de Vries and Thomas Friedl	
2.1 Introduction: The Role of Endosymbiosis in the Evolution of Eukaryotes	9
2.2 Primary Endosymbiosis: The Endosymbiotic Origin of Plastids	12
2.3 Eukaryote-Eukaryote Endosymbioses	16
2.4 A Modern Overview of Eukaryotic Diversity—The Opuntia-Tree-of-Life . . .	18
2.5 Life histories, Plastid Spread, and Sexual Reproduction in the <i>New Cryptogams</i>	20
References	22
3 Cyanobacteria/Blue-Green Algae	25
Burkhard Büdel	
3.1 Short History of Cyanobacterial Research	26
3.2 Origin of Cyanobacteria	28
3.3 Structure and Function	30
3.4 Survival and Cell Specialization	43
3.5 Reproduction, Life Cycle	48
3.6 Phylogeny and Diversity	51
3.7 Ecology	69
References	91
4 Algae from Primary Endosymbioses	101
Burkhard Büdel and Thomas Friedl	
4.1 Rhodophyta, Red Algae	102
Burkhard Büdel	
4.2 Chloroplastida—Green Algae	131
Frederik Leliaert, Olivier De Clerck, Tatyana Darienko, Jan de Vries, and Thomas Friedl	
4.3 Glaucophyta	198
Burkhard Büdel	

4.4	Cercozoa—A Second Primary Endosymbiosis	203
	Burkhard Büdel	
	References	207
5	Algae from Secondary Endosymbiosis	219
	Thomas Friedl	
5.1	Heterokontophyta—Photosynthetic Stramenopiles	220
	Louis Graf	
5.2	Dinoflagellates	280
	Thomas Friedl and Mona Hoppenrath	
5.3	A Cercozoan Secondary Endosymbiosis: Chlorarachniophyta	297
	Angelika Preisfeld and Burkhard Büdel	
5.4	Euglenids—(Excavates, Discoba, Euglenozoa, and Euglenida)	302
	Angelika Preisfeld	
5.5	Haptista	323
	Burkhard Büdel and Angelika Preisfeld	
5.6	Cryptista	333
	Kerstin Hoef-Emden	
	References	353
6	Symbioses	385
	Burkhard Büdel	
6.1	Algal Symbioses	385
6.2	Lichens	402
	References	463
7	Bryophytes	475
	Wolfram Beyschlag	
7.1	Introduction	476
7.2	Division: Marchantiophyta—The Liverworts	478
7.3	Division Bryophyta—The Mosses	495
7.4	Division: Anthocerotophyta—The Hornworts	532
7.5	Asexual Reproduction	538
7.6	Physiology and Physiological Ecology	540
7.7	Ecology	554
	References	580
	Glossary	605
	Index	615
