

CONTENTS

INTRODUCTORY ARTICLES

Molecular Composites

M. Takayanagi 3

Modeling of Molecular and Particulate Composites

T.S. Chow 19

Microstructural Considerations in the Development of Improved Fibre Reinforced Thermoplastics

M.J. Folkes, S.T. Hardwick, and W.K. Wong 33

Mechanics of Hybrid Composites

H. Fukuda 51

Conducting Polymer Composites

A.T. Ponomarenko, V.G. Shevchenko, I.A. Tchmutin,
A.A. Ovchinnikov, and N.S. Enikolopyan 67

Rheological Properties of Amorphous Polymers Containing Platelet Fillers

R.P. Chartoff and E.H. Eriksen 89

Comparison between Theoretical and Practical Mechanical Properties of Polyolefins-Glass Beads Composites

M. Pegoraro 105

Oxidative Degradation of Polypropylene Catalysed by Mineral Fillers

K. Veselý, J. Petrůj, and A. Zahradníčková 123

PREPARATION-PROPERTIES-USE

1. Polyolefin Composites

Some Properties of Highly Filled Oriented Polyolefins with Chalk and Other Systems

M. Kryszewski, A. Gałęski, and T. Kowalewski 141

Cellulosic Fillers for Thermoplastics	
C. Klason and J. Kubát	153
The Effect of Fillers on the Rheological and Mechanical Properties of Polypropylene Composites	
B. Pukánszky, F. Tüdös, and T. Kelen	167
Relation between Critical Fiber Length and Tensile Strength for Glass Fiber - Polypropylene Resin Composites	
M. Miwa and T. Ohsawa	183
Polypropylene-Mica Composites	
J.P. Trotignon, J. Verdu, R. de Boissard, and A. de Vallois	191
Influence of Fillers on the T_g Process of Polypropylene	
E.J. Pääkkönen, S.N. Magonov, and P. Törmälä	199
Polypropylene Composites - Dependence of the Yield Stress on the Concentration of Particulate CaCO_3 Filler	
J. Hugo and M. Housková	207
Thermoelastic Effect of "Polypropylene - CaCO_3 " Composites. The Influence of the Composition, Rate of Strain and Temperature	
J. Hugo, M. Housková, and V. Matěna	217
Rigid Structural Foams from Composite Polypropylene/ Calcium Carbonate	
F. Šmejkal	225
Instrumented Impact Studies of Some Thermoplastic Composites	
H. Hoffmann, W. Grellmann, and V. Zilvar	233
The Interactions on the Interface of Polypropylene and Organic Pigments	
A. Marcinčin, E. Zemanová, and J. Beniska	243
2. Other Polymer Composites	
Use of Wood Fibers in Thermoplastic Composites	
III. Polymethyl methacrylate	
B.V. Kokta, P.D. Kamdem, A.D. Beshay, and C. Daneault ...	251

Structure and Properties of Polystyrene Prepared by Polymerization in the Presence of Carbon Fillers M.T. Bryk and A.F. Burban	269
Thermomechanical Behaviour of Graft Styrene Copolymers and their Composites M.C. Michailov and L.I. Minkova	275
Composites of Alkaline Poly(6-Caprolactam) Polymerized in Situ J. Horský and J. Kolařík	283
Anionic Poly(6-Caprolactam) Composites Polymerized in Rotating Moulds J. Horský	291
Mechanical Properties of Soft PVC-Textile Composites J. Piękowski and M. Kozłowski	297
Hydrophilic and Thermoformable Silicone Rubber Composite P. Vondráček, J. Hrudka, J. Šulc, and P. Lopour	303
Effect of Polymer Matrix on the Efficiency of Microcapsulated Flame Retardants T.V. Popova, R.P. Stankevitch, M.S. Vilesova, N.A. Khalturinskii, and A.A. Berlin	311
Properties of Protein Modifications Covalently Linked to Particles J. Zemek, L. Kuniak, I. Novák, and D. Berek	323
3. Thermosetting Matrices	
The Reversibility of Hydrothermal Effects in Fibre- Resin Composites G. Pritchard and S.D. Speake	329
Low Temperature Relaxation Behavior of Epoxy Resins T. Takahama, C.S. Wu, A. Chen, S. Pangrele, and P.H. Geil	347
Thermally Stimulated Depolarization of Radiation Cured Unsaturated Polyester Resin-Glass Micronodules Composites Z. Jelčić and F. Ranogajec	363

Glass Beads Filled Epoxy System: The Toughening Effect of an Introduced Elastomer Interphase Y.G. Lin, J.P. Pascault, and H. Sautereau	373
Structure and Mechanical Properties of Polymer-Phenolic Microsphere Composites D. Żuchowska, J. Malczewski, and L. Wozniak	381
Catalytic Effect of the Solid Acids at Amino Resins Solidification V.M. Tcheshkov, M.M. Natova, G.Z. Zachariev, G.V. Kozlov, and T.M. Morozova	389

MECHANICAL STABILITY OF COMPOSITES

1. Interface Effects

Interphase Effects on Viscoelastic Properties of Polymer Composites F.H.J. Maurer	399
On the Influence of the Interface on Processing and Application Properties of Filled Polymers M. Rätzsch, H.-J. Jacobasch, and K.-H. Freitag	413
About Interface Problems in Kaolin-Filled Polyethylene J. Gähde	431
Structure-Property Relationship at Composite Interfaces J.D. Miller, H. Ishida, and F.H.J. Maurer	449
The Effects of Additives on the Structure and Mechanical Properties of Polypropylene-Filler Systems G. Marosi, G. Bertalan, I. Rusznák, P. Ana, and I. Molnár	457
The Properties of Polymers Containing Petroleum Stabilizers G.F. Bolshakov and A.A. Sidorenko	465
Filling of Polymers with the Aid of Coupling Agents K. Szióártó and P. Kiss	473

2. Failure and Fracture Effects

Some Observations about the Failure of Polymer Composites

J. Němec 479

On the Effect of the Yarn Rupture Elongation Scatter on the Strength of Unidirectional Organic Fibre Reinforced Plastics

S.L. Bazhenov, A.M. Kuperman, L.V. Puchkov,
E.S. Zelenski, and A.A. Berlin 487

A Study of the Adhesion Strength in the Matrix-Prestrained Fiber Joints

A.M. Kuperman and Yu.A. Gorbatkina 497

Strain Rate Dependences of Deformation Behaviour and Fracture Surface Morphology in Polypropylene with Short Glass Fibres

M. Sova 507

Fracture Toughness of Filled Thermoplasts at Dynamical Tests

E. Nezbedová, J. Poněšický, and M. Sova 515

STRUCTURES AND METHODS

1. Structure and Properties of Composites

A Study of Reactive Polymer Morphology Using Holographic Microscopy

R.P. Chartoff, H.G. Spicer, G. Kevin, and
J.K. Johnson 525

Polyethylene - Polystyrene Gradient Polymer.II. Influence of the Diffusion of Styrene on the Structure of Host Polymer

P. Milczarek and M. Krýszewski 531

Structure of Polypropylene/EPDM Elastomer/Calcium Carbonate Composites

J. Kolařík and F. Lednický 537

Mechanical Properties of Polyethylene and Polypropylene Filled with Calcium Carbonate	
J. Kučera and J. Kolařík	545
Mechanical Properties of Three-Component Polypropylene Composites	
B. Pukánszky, J. Kolařík, and F. Lednický	553
Structure of Polyethylene Filled with Mineral Filler and Glass Beads	
V. Švehlová	561
2. Testing Methods	
Detection of Interfacial Debonding in Particle-Reinforced Composites	
E.A.A. van Hartingsveldt	569
Three-Fibre Method for Measuring Glass Fibre to Thermoplastic Bond Strength	
P.A. Järvelä, P. Törmälä, and P.K. Järvelä	575
Influence of the Viscoelastic Properties on the Bonding Strength of Metal-Polymer Composites	
A. Bauer and C. Bischof	583
Cafod - Computer-Aided Fiber Orientation Determination in Composites	
V. Djakovich, S. Fakirov, and L. Christov	589
Homogeneity of Polymer Composites	
F. Rybníkář	597
Microscopic Methods Characterizing the Dispersion in Mineral-Filled Thermoplastics	
V. Švehlová	607
ABBREVIATIONS	615
AUTHOR INDEX	617
SUBJECT INDEX	619
