Introduction

I. <u>On Modeling the Cross-Dual Dynamics of Competition</u>		1-124
P. Flaschel and W. Semmler	The Dynamic Equalization of Profit Rates for Input-Output Models with Fixed Capital	1
R. Kuroki	The Equalization of the Rate of Profit Reconsidered	35
R. Franke	A Cross-Over Gravitation Process in Prices and Inventories	51
L. Boggio	Stability of Production Prices in a Model of General Interdependence	83
T. Fujimoto and U. Krause	Ergodic Price Setting with Technical Progress	115
II. <u>Microfoundations of Macrodynamics and Limit Cycles</u>		125-211
R.M. Goodwin	Swinging along the Autostrada	125
G. Duménil and D. Lévy	Stability and Instability in a Dynamic Model of Capitalist Production	132
W. Semmler	On a Microdynamics of a Nonlinear Macrocycle Model	170
D.K. Foley	Stabilization Policy in a Nonlinear Business Cycle Model	200

<u>III. Linear and Nonlinear Macrodynamics</u>		212-303
J. Glombowski and		
M. Krueger	Some Extensions of a Classical Growth Cycle Model	212
M. Jarsulic	Growth Cycles in a Classical-Keynesian Model	252
P. Flaschel and		
R. Picard	Problems Concerning the Dynamic Analysis of a Keynesian Model with Perfect Foresight	269
E. Nell	Cyclical Growth: The Interdependent Dynamics of Industry and Agriculture	289
<u>IV. Econometrics of the Dynamics of Proportions and Nonlinear Macrodynamics</u>		304-340
M. Juillard	The Stability of the Reproduction Scheme: Theoretical Discussion and Empirical Evidence for the United States, 1948-1980	304
S.N. Neftci	Testing Non-Linearity in Business Cycles	324
