1	Introduction	1
2	Materials and Methods	3
3	Results	4
3.1	Bursa Ovarica	4
3.1.1	Description	4
3.1.2	Discussion	6
3.2	Epoophoron and Paroophoron	7
3.2.1	General Aspects	7
3.2.2	Insectivora	8
3.2.3	Crocidura russula	9
3.2.3.1	Topography and General Aspects of the Epoophoron	9
3.2.3.2	Light and Electron Microscopical Results	10
3.2.3.3	Paroophoron	16
3.2.3.4	Apoptosis	19
3.2.3.5	Discussion	19
3.3	Tuba Uterina	21
3.3.1	General Aspects	21
3.3.2	Ciliated Cells	23
3.3.3	Secretory or Nonciliated Cells	23
3.3.4	Nucleated Apical Protrusions	27
3.3.5	Discussion	28
3.3.5.1	General Aspects	28
3.3.5.2	Height of Epithelium	29
3.3.5.3	Frequency of Ciliated to Nonciliated or Secretory Cells	29
3.3.5.4	Apical Protrusions of the Nonciliated or Secretory Cells	29
3.3.5.5	Secretory Granules	30
3.3.5.6	Nucleated Apical Protrusions	30
3.3.5.7	Glycogen	30
3.4	Uterus	31
3.4.1	Uterine Structures	31
3.4.2	Uterine Glands	32
3.4.3	Discussion	34

V

3.4.3.1	General Aspects	34
3.4.3.2	Uterine Glands	41
3.4.3.3	Glycogen	41
3.4.3.4	Complex Nuclear Bodies	42
3.5	Cervix	42
3.5.1	Description	42
3.5.2	Discussion	46
3.6	Vagina	47
3.6.1	General Aspects	47
3.6.2	Anestrus	48
3.6.3	Estrus	51
3.6.4	Pregnancy	58
3.6.5	Discussion	58
4	Concluding Discussion	61
4.1	Monotremes	61
4.2	Marsupials	62
4.3	Chiroptera	63
4.4	Other Mammals	63
4.4.1	Bursa	63
4.4.2	Epoophoron	63
4.4.3	Tuba Uterina	63
4.4.4	Uterus	64
4.4.5	Cervix	64
4.4.6	Vagina	64
5	Summary	66
	Acknowledgments	68
	References	69
