

Contents

I. Structure and Function	1
1. Anatomy and Physiology Pertinent to Stroke <i>Waltz, Arthur C.</i>	3
2. Canine Cerebral Ischemia <i>Dujovny, M., Osgood, C.P., Maroon, J.C., Jannetta, P.</i>	8
3. Anatomical Studies of the Posterior Circulation Relevant to Occipital Artery Bypass <i>Weinstein, P.R., Chater, N.L., Lamond, R.</i>	23
4. Comparison of Blood Flow and Patency in Arterial and Vein Grafts to the Basilar Artery <i>Rhoton, A.L., Jr., Mozingo, J.R., Whang, C.J.</i>	27
5. The Endothelial Surface of Arteries: A Scanning Electron Microscopic Examination of Normal and Anastomosed Vessels <i>Bannister, C.M., Mundy, L.A., Mundy, J.E.</i>	35
6. The Experimental Effects of Prostaglandin E ₁ on Small Vessel Patency <i>Lamond, R.G., Chater, N.L.</i>	45
II. Metabolism	57
7. Oxidative Metabolism in Cerebral Ischemia <i>Fein, J.M.</i>	59

8.	Evidence for Barbiturate Protection in Focal Cerebral Ischemia: A Hypothesis for Mechanism and Clinical Utility	86
	<i>Molinari, G.F., Lightfoote II., W.E., Fein, J.M.</i>	
9.	Transient Ischemic Attacks and Metabolic Aspects of Their Relief by Microneurosurgical Anastomosis	94
	<i>Austin, G., Haugen, G., Schuler, W.</i>	
III. Clinical Evaluation and Diagnosis		103
10.	Management of Risk Factors and Other Diseases in Candidates for Microneurosurgical Anastomosis in Cerebral Ischemia	105
	<i>Cassidy, J.E.</i>	
11.	Ocular Plethysmography and Suction Ophthalmodynamometry in the Diagnosis of Carotid Occlusive Disease	117
	<i>Carney, A.L.</i>	
12.	Collateral Circulation of the Brain	132
	<i>Azar-Kia, B., Palacios, E.</i>	
13.	Angiographic Cerebral Blood Flow Patterns in STA-MCA Anastomosis Candidates	145
	<i>Thompson, J.R., Rouhe, S.A., Austin, G.M., Simmons, C.R.</i>	
IV. Surgical Techniques		159
14.	Contemporary Techniques of Cerebral Revascularization	161
	<i>Fein, J.M.</i>	
15.	External Carotid-Middle Cerebral Artery Bypass Using Free Graft Bypass	178
	<i>Epstein, M.H.</i>	
16.	Electromagnetic Blood Flowmetry in Microvascular Anastomosis	181
	<i>Stephens, H.W., Jr.</i>	
17.	Brain Vascularization by Transplanted Omentum	195
	<i>Yasargil, M.G., Yonekawa, Y., Pfenninger, E.</i>	

V. Clinical-Hemodynamic Considerations	199
18. Augmentation of Collateral Hemispheric Blood Pressure following Superficial Temporal to Middle Cerebral Artery Anastomosis: Documentation by Ocular Plethysmography	201
<i>Chater, N.L., Weinstein, P.R., Gee, W.</i>	
19. Regional Cerebral Blood Flow Studies following Superficial Temporal-Middle Cerebral Artery Anastomosis	204
<i>Heilbrun, M.P., Reichman, O.H., Anderson, R.E., Roberts, T.S.</i>	
20. Current Status of Regional Cerebral Blood Flow Measurement in Revascularization Microsurgery of the Brain	210
<i>Schmiedek, P., Steinhoff, H., Gratzl, O.</i>	
21. Estimation of Flow Through STA Bypass Graft	220
<i>Reichman, O.H.</i>	
22. Cerebral Blood Flow in Stroke-Type Patients	241
<i>Austin, G., Laffin, D., Vasudevan, R., Lichter, E., Hayward, W.</i>	
 VI. Clinical Results	 267
23. Progression of Middle Cerebral Artery Stenosis to Occlusion Without Symptoms following Superficial Temporary Artery Bypass: Case Report	269
<i>Chater, N.L., Weinstein, P.R.</i>	
24. Experiences with the STA-Cortical MCA Anastomosis in 46 Cases	272
<i>Yasargil, M.G., Yonekawa, Y.</i>	
25. Clinical Experiences with STA-MCA Anastomosis in 54 Cases	278
<i>Kikuchi, H., Karasawa, J.</i>	
26. Microneurosurgical Arterial Anastomoses in Patients with Prolonged Reversible Ischemic Neurological Deficits (PRIND)	284
<i>Gratzl, O., Schmiedek, P.</i>	

27.	Review of Experience with 50 Consecutive Cases of Superficial Temporal Artery to Middle Cerebral Artery Anastomosis for Treatment of Cerebrovascular Occlusive Disease	290
	<i>Chater, N.L., Peerless, S.J., Weinstein, P.R.</i>	
	VII. Other Applications	305
28.	Microvascular Anastomosis and Carotid Artery Ligation for Fibromuscular Hyperplasia and Carotid Artery Aneurysm	307
	<i>Stephens, H.W., Jr.</i>	
	Index	317
