

Table of Contents

Statistical Significance for NGS Reads Similarities	1
<i>Antonio Muñoz-Mérida, Javier Ríos, Hicham Benzekri, and Oswaldo Trelles</i>	
Application of Array-Oriented Scientific Data Formats (NetCDF) to Genotype Data, GWASpi as an Example	8
<i>Fernando Muñiz Fernandez, Angel Carreño Torres, Carlos Morcillo-Suarez, and Arcadi Navarro</i>	
An Ontology and a REST API for Sequence Based Microbial Typing Data	21
<i>João Almeida, João Tiple, Mário Ramirez, José Melo-Cristino, Cátia Vaz, Alexandre P. Francisco, and João A. Carriço</i>	
Multivariate Methods for the Integration and Visualization of Omics Data	29
<i>Alex Sánchez, José Fernández-Real, Esteban Vegas, Francesc Carmona, Jacques Amar, Remy Burcelin, Matteo Serino, Francisco Tinahones, M. Carmen Ruiz de Villa, Antonio Minarro, and Ferran Reverter</i>	
A Holistic Approach for Integrating Genomic Variation Information	42
<i>Pedro Lopes and José Luís Oliveira</i>	
SB-KOM: Integration of Pathway Information with BioPax	50
<i>María Jesús García-Godoy, Ismael Navas-Delgado, and José F. Aldana-Montes</i>	
GENote v.β: A Web Tool Prototype for Annotation of Unfinished Sequences in Non-model Eukaryotes	66
<i>Noé Fernández-Pozo, Darío Guerrero-Fernández, Rocío Bautista, Josefa Gómez-Maldonado, Concepción Avila, Francisco M. Cánovas, and M. Gonzalo Claros</i>	
Interface Similarity Improves Comparison of DNA-Binding Proteins: The Homeobox Example	72
<i>Álvaro Sebastián, Carlos P. Cantalapiedra, and Bruno Contreras-Moreira</i>	
Pyicos: A Flexible Tool Library for Analyzing Protein-Nucleotide Interactions with Mapped Reads from Deep Sequencing	83
<i>Juan Gonzalez-Vallinas, Sonja Althammer, and Eduardo Eyras</i>	

Novel Angiogenic Functional Targets Predicted through “Dark Matter”
Assessment in Protein Networks 89
Ian Morilla, Miguel A. Medina, and Juan A.G. Ranea

jORCA and Magallanes Sailing Together towards Integration of Web
Services..... 94
Johan Karlsson and Oswaldo Trelles

iHOP Web Services Family 102
José M. Fernández, Robert Hoffmann, and Alfonso Valencia

Bioinformatic Software Developments in Spain 108
José M. Fernández and Alfonso Valencia
