Introduction	1
The classification of the fungi	3
The names of the fungi	7
Myxomycota	10
Chytridiomycota	14
Oomycota	19
Peronosporales	19
Zygomycota	30
Mucorales	30
Endogonales	33
Entomophthorales	33
Zoopagales	35
Ascomycota	36
Endomycetes	36
Endomycetales	38
Taphrinales	41
Ascomycetes	44
Dothideales	46
Pezizales	64
Eurotiales	65
Erysiphales	68
Meliolales	76
Sphaeriales	76
Phacidiales	100
Basidiomycota	114
Ustomycetes	114
Ustilaginales	116
Urediniomycetes	121
Auriculariales	121
Uredinales	122
Basidiomycetes	132
Tilletiales	135
Exobasidiales	138
Cantharellales	140
Aphylllophorales	141
Polyporales	148
Agaricales	158
Russulales	163
Boletales	163
Lycoperdales	165

Sclerodermatales and Nidulariales.....	166
Phallales.....	168
Deuteromycetes.....	170
Sphaeropsidales.....	173
Melanconiales.....	174
Moniliales (Hyphomycetes).....	176
A. Anamorphs of Dothideales.....	181
B. Anamorphs of Sphaeriales.....	215
C. Anamorphs of Phacidiales.....	234
D. Genera with other or with unknown teleomorphs.....	242
Sterile Fungi.....	250
References.....	253
List of botanical names of host plants with common equivalents.....	263
List of common host names with botanical equivalents.....	268
Index of fungal names.....	274
