Preface — V

Acknowledgments — VII

About the editor — XI

List of contributors — XIII

Zainah A. Aldhawi, Ibtisam I. BinSharfan, Mahmoud A. Abdulhamid

Chapter 1

Polyimide-based membranes for gas separation applications — 1

Ali Hayek

Chapter 2

Hydrogen sulfide removal from natural gas streams using polymeric membranes — 45

Jisha Kuttiani Ali, Emad Alhseinat

Chapter 3

Recent progress in modification methods of polymeric membranes for water treatment — 87

Abdullah Ali, Amani Al-Othman, Muhammad Tawalbeh

Chapter 4

Polymer membranes: general principles and applications in fuel cells — 115

Wafa Suwaileh, Soheil Zarghami, Saima Farooq, Nipa Roy,
Mohammad Boshir Ahmed

Chapter 5

Polymer membranes for catalysis — 139

Neelesh Ashok, Sruthi M. S., Taniya Rose Abraham, Sabu Thomas

Chapter 6

Polymer membranes for pervaporation — 165

Asmaa Selim

Chapter 7

Advances in polymer membranes for pervaporation — 195

Sadia Bano, Muhammad Altaf, Sajda Bano

Chapter 8

Electrospun nanofibrous membranes (ENMs) for environmental applications — 233

Neelesh Ashok, Sruthi M. S., Taniya Rose Abraham, Sabu Thomas

Chapter 9

Polymer membrane for desalination and distillation — 261

Hind Yaacoubi, Mahmoud A. Abdulhamid

Chapter 10

Oil fractionation and water/oil emulsion separation using polymer membranes — 291

Mahmoud A. Abdulhamid

Chapter 11

Advancement and recent development of polymer membranes for organic solvent nanofiltration — 315

Rifan Hardian, Diana G. Oldal, Zulfida Mohamad Hafis Mohd Shafie,

Mahmoud A. Abdulhamid, Gyorgy Szekely

Chapter 12

Advanced membranes from interpenetrating polymer networks — 337

Index — 377
