

## Contents

Chapter I	1
The Regulation of the Glutathione	
Level in the Liver .....	
<hr/>	
Turnover of Glutathione in Rat Liver	
N. TATEISHI and T. HIGASHI (With 3 Figures) .....	3
Regulation of the Hepatic Concentration	
of Reduced Glutathione	
H.A. KREBS, R. HEMS, and J. VIÑA .....	8
The Role of the Cystathionine Pathway in	
Glutathione Regulation by Isolated Hepatocytes	
D.J. REED and P.W. BEATTY (With 2 Figures) .....	13
Physiological Significance of Elevation of Liver	
$\gamma$ -Glutamyltranspeptidase in Late Pregnancy	
T. HIGASHI and N. TATEISHI (With 3 Figures) .....	22
Glutathione Efflux from Perfused Rat Liver and	
Its Relation to Glutathione Uptake by the Kidney	
G.M. BARTOLI, D. HÄBERLE, and H. SIES .....	27
Unidirectional Transport of Reduced Glutathione	
in Rat Liver and Its Metabolization in the	
Extracellular Space	
R. HAHN and W. OBERRAUCH (With 5 Figures) .....	32
<hr/>	
Chapter II	
The Role of $\gamma$ -Glutamyl-Transferase in	
Glutathione Turnover .....	41
<hr/>	
Current Status of the $\gamma$ -Glutamyl Cycle	
A. MEISTER (With 3 Figures) .....	43
Topology and Function of Renal $\gamma$ -Glutamyl	
Transpeptidase	
S. SILBERNAGL, W. PFALLER, H. HEINLE,	
and A. WENDEL (With 5 Figures) .....	60
The Membrane Association and Physiological	
Function of Rat Renal $\gamma$ -Glutamyltranspeptidase	
N.P. CURTHOYS, R.P. HUGHEY, and P.J. COYLE	
(With 5 Figures) .....	70
Studies on the Active Site of $\gamma$ -Glutamyl-	
transferase	
J.S. ELCE .....	78

The Role of Glutathione in Transport Activity in Kidney F.H. LEIBACH, D.J. PILLION, J. MENDICINO, and D. PASHLEY .....	84
--	----

---

Chapter III Hydroperoxide and Disulfide Metabolism .....	93
---	----

Hydroperoxide Metabolism: An Overview B. CHANCE, A. BOVERIS, Y. NAKASE, and H. SIES (With 9 Figures) .....	95
--	----

The Selenium Moiety of Glutathione Peroxidase A. WENDEL, B. KERNER, and K. GRAUPE (With 3 Figures) .....	107
--	-----

Non-Selenium-Dependent Glutathione Peroxidase R.F. BURK and R.A. LAWRENCE (With 4 Figures) ....	114
--	-----

Properties of Glutathione Disulfide (GSSG) and Glutathione-S-Conjugate Release from Perfused Rat Liver H. SIES, A. WAHLLÄNDER, and Ch. WAYDHAS (With 5 Figures) .....	120
---	-----

Reduction of Diazenes and Hydroperoxides by Rat Liver Mitochondria P.C. JOCELYN (With 11 Figures) .....	127
---	-----

Effect of Oxidation of Glutathione and Membrane Thiol Groups on Mitochondrial Functions N. SILIPRANDI, D. SILIPRANDI, A. BINDOLI, and A. TONINELLO (With 5 Figures) .....	139
--	-----

The Roles of Glutathione, Thioltransferase, and Glutathione Reductase in the Scission of Sulfur-Sulfur Bonds B. MANNERVIK and K. AXELSSON .....	148
--	-----

---

Chapter IV Pharmacological and Toxicological Aspects .....	155
---	-----

The Glutathione Transferases in Detoxification W.B. JAKOBY (With 1 Figure) .....	157
---	-----

Functions of Glutathione in Drug Metabolism S. ORRENIUS and D.P. JONES (With 8 Figures) ....	164
---	-----

Lipid Peroxidation Induced by Ethanol and Halogenated Hydrocarbons <i>in vivo</i> as Measured by Ethane Exhalation H. KAPPUS, U. KÖSTER, D. KÖSTER-ALBRECHT, H. KIECZKA, and H. REMMER (With 3 Figures) .....	176
---	-----

Drug-induced Lipid Peroxidation in Mouse Liver A. WENDEL, S. FEUERSTEIN, and K.-H. KONZ (With 3 Figures) .....	183
--	-----

Cellular Functions in Glutathione-Depleted Hepatocytes J. HÖGBERG, I. ANUNDI, A. KRISTOFERSON, and A.H. STEAD (With 4 Figures) .....	189
Glutathione and Glutathione Conjugate Metabolism in Isolated Liver and Kidney Cells D.P. JONES, A.H. STEAD, P. MOLDEUS, and S. ORRENIUS (With 9 Figures) .....	194
Glutathione-Requiring Enzymes in the Metabolism of Prostaglandin Endoperoxides E. CHRIST-HAZELHOF and D.H. NUGTEREN (With 3 Figures) .....	201
Subject Index .....	207
