
CONTENTS

Preface to the Series	ix
Preface	xi
Foreword	xiii
Notation and Units	xv
Introduction: Review of Equations for the Calculation of Thermophysical Properties of Freons	xvii

1	THERMOPHYSICAL PROPERTIES OF FREON-20	1
1.1	A Review of Published Data about Thermodynamic Properties	1
1.2	A Review of Published Data about Viscosity and Thermal Conductivity	9
1.3	Tables of Thermophysical Properties	14
	Table 12: Thermophysical Properties of Freon-20 on the Saturation Line	15

v

2	THERMOPHYSICAL PROPERTIES OF FREON-21	17
2.1	A Review of Published Data about Thermodynamic Properties	17
2.2	System of Equations for the Calculation of Thermodynamic Properties	24
2.3	A Review of Published Data about Viscosity and Thermal Conductivity	27
2.4	Tables of Thermophysical Properties	35
	Table 22: Thermodynamic Properties of Freon-21 on the Saturation Line	36
	Table 23: Thermodynamic Properties of Freon-21 in the Single-Phase Region	39
	Table 24: Transport Properties of Freon-21 on the Saturation Line	57
	Table 25: Transport Properties of Freon-21 in the Single-Phase Region	60
3	THERMOPHYSICAL PROPERTIES OF FREON-22	65
3.1	A Review of Published Data about Thermodynamic Properties	65
3.2	System of Equations for the Calculation of Thermodynamic Properties	86
3.3	A Review of Published Data about Viscosity and Thermal Conductivity	88
3.4	Tables on Thermophysical Properties	102
	Table 37: Thermodynamic Properties of Freon-22 on the Saturation Line	103
	Table 38: Thermodynamic Properties of Freon-22 in the Single-Phase Region	107
	Table 39: Transport Properties of Freon-22 on the Saturation Line	128
	Table 40: Transport Properties of Freon-22 in the Single-Phase Region	131

4	THERMOPHYSICAL PROPERTIES OF FREON-23	137
4.1	A Review of Published Data about Thermodynamic Properties	137
4.2	System of Equations for the Calculation of Thermodynamic Properties	149
4.3	A Review of Published Data about Viscosity and Thermal Conductivity	150
4.4	Tables of Thermophysical Properties	154
	Table 50: Thermodynamic Properties of Freon-23 on the Saturation Line	157
	Table 51: Thermodynamic Properties of Freon-23 in the Single-Phase Region	157
	Table 52: Transport Properties of Freon-23 on the Saturation Line	180
	Table 53: Transport Properties of Freon-23 in the Single-Phase Region	182
