

CONTENTS

U.S. - JAPAN JOINT SEMINAR ON STOCHASTIC APPROACHES IN EARTHQUAKE ENGINEERING

K. ASANO, Application of Probabilistic Approach to Aseismic Safety Analysis of Soil-Building Structure Systems	1
C. A. CORNELL and S. R. WINTERSTEIN, Temporal and Magnitude Dependence in Earthquake Recurrence Models	18
B. ELLINGWOOD and J. O'CONNOR, Response Statistics of Nonlinear Systems Subjected to Seismic Excitation	40
Y. FUJINO AND P. PHEINSUSOM, Modal Interaction in Dynamical Systems with Closely-Spaced Natural Frequencies under Self-Excited and Random Forces	52
M. HOSHIYA and O. MARUYAMA, Kalman Filtering of Versatile Restoring Systems	68
H. IEMURA and Y. YAMADA, Earthquake Failure Mechanism of Hysteretic Structures with Stress-Strain Based Modeling	87
W. D. IWAN and L. G. PAPARIZOS, The Stochastic Response of Strongly Yielding Systems - A New Look at an Old Problem	101
T. KATAYAMA, Applications of Statistics and Probability to Seismic Disaster Mitigation Researches	118
M. KAWANO and T. KOBORI, Stochastic Seismic Response Sensitivity of Soil-Structure Interaction System	139
R. C. LIN, T. T. SOONG, and A. M. REINHORN, Active Stochastic Control of Seismic Structures	157
Y. K. LIN and Y. YONG, Evolutionary Kanai-Tajimi Type Earthquake Models ...	174
R. MINAI and Y. SUZUKI, Stochastic Estimates of Nonlinear Dynamic Systems	204
T. SATO, Importance Analyses for Upgrading Seismic Reliability of Large Scale Lifeline Networks	231
M. SHINOZUKA, G. DEODATIS, and T. HARADA, Digital Simulation of Seismic Ground Motion	252
M. P. SINGH, Seismic Design of Secondary Systems	299
P. SPANOS, J. ROESSET and M. DONLEY, Evolutionary Power Spectrum Estimation of September 19, 1985 Mexico Earthquake Accelerograms	322

Y. SUZUKI and R. MINAI, Application of Stochastic Differential Equations to Seismic Reliability Analysis of Hysteretic Structures	334
Y. TAKEUCHI, Site Effects On the Non-Stationarity of Earthquake Excitations and Structural Responses	357
K. TOKI, S. SAWADA and Y. OKASHIGE, Simulation of Fault Rupture Process by the Stochastic Finite Element Method	373
D. VENEZIANO and J. VAN DYCK, Statistical Analysis of Earthquake Catalogs for Seismic Hazard	385
Y. K. WEN and H-C. CHEN, On Fast Integration for Time Variant Structural Reliability	428
