Foreword ... 6

Short ABCs of Thermal Imaging ... 8

1 Early History: Learning from Nature ... 15

1.1 Seen in the Light of Day: The Human Eye ... 16

1.2 Who Can See Thermal Radiation? ... 18

2 Fundamental Research until 1900: Worth a Nobel Prize ... 23

2.1 Antique Experiments on Temperature Distribution ... 24

2.2 Experiments on Thermal Effects of Radiation ... 25

2.3 Research on Light and Radiation ... 28

2.4 Laying the Theoretical Foundations ... 36

3 Thermal Imaging until 1945: Difficult Start ... 45

3.1 Thermal Images without Electricity ... 49

3.2 Thermal Pointers with Bolometer Detectors ... 53

3.3 Thermal Pointers with Lead-Salt Detectors ... 71

3.4 Thermal Pointers in Military Service ... 79

3.5 State of Thermal Imaging in 1945 ... 88

4 New Beginning in Germany in 1945: The Zero Hour ... 91

5	Thermal Imaging until 1975: How Pictures Learned to Move ...	97
----------	---	-----------

5.1	Thermal Imagers with Lead-Salt Detectors ...	98
5.2	Short Flourishing of Non-Electric Thermal Imagers ...	101
5.3	Medical Thermography as a Pacemaker ...	110
5.4	First Thermal Imagers with Linear Detector-Arrays ...	120

6	Common Module Devices until 1995: Success by Numbers ...	137
----------	---	------------

6.1	Emergence of Common Modules ...	138
6.2	Technology of US-German Common Modules ...	149
6.3	Common Module Zeiss WBG-X Thermal Imager ...	157
6.4	Zeiss WBG-X in Active Service ...	161
6.5	State of Thermal Imaging in 1992 ...	179

7	Thermal Imagers of 2nd Generation until 2005: Simply Digital ...	179
----------	--	------------

7.1	Emergence of 2 nd Generation Common Modules ...	185
7.2	Technology of German Ophelios Modules ...	192
7.3	German Ophelios Modules in Active Service ...	208
7.4	Technology of French-German Synergi Modules ...	219
7.5	Applications of German Synergi Thermal Imagers ...	225
7.6	Comparison of 2 nd Generation Thermal Imagers ...	228
7.7	Generation Gap: 1 st Generation vs. 2 nd Generation ...	230

8	Review and Outlook: The Changing Face of Thermal Imaging ...	233
----------	---	------------

	Timeline: General History of Thermal Imaging ...	242
	Glossary ...	247
	Bibliography ...	251
	List of Figures ...	252
	Notes ...	255
