

TABLE OF CONTENTS

I	ENVIRONMENTS	1
	SADL: A Software Development Environment for Software Specification, Design and Programming. <i>F PONCET</i> (F)	3
	PantaPM: An Integrated Software Development Environment. <i>H OSWALD</i> (CH)	12
	Development of a Programming Environment for Setl. <i>V DONZEAU-GOUGE, C DUBOIS, P FACON, F JEAN</i> (F)	21
II	CONFIGURATION MANAGEMENT	33
	Configuration Management in an Open Environment. <i>Y BERNARD, M LACROIX, P LAVENCY, M VANHOEDENAGHE</i> (B)	35
	Software Management Constraints and Action Triggering in the Adele Program Database. <i>N BELKHATIR, J ESTUBLIER</i> (F)	44
	Enhancing Configuration Facilities in Software Development: A Logic Approach. <i>P ASIRELLI, P INVERARDI</i> (I)	55
	Delta Technique and String-to-String Correction. <i>W OBST</i> (D)	64
III	THE INTERNALS OF ENVIRONMENTS: THE BONES	69
	ASDL - An Object-Oriented Specification Language for Syntax- Directed Environments. <i>M L CHRIST-NEUMANN, H W SCHMIDT</i> (D)	71
	A Hybrid Interpreter in a Software Development Environment. <i>G ENGLER, A SCHURR</i> (D)	80
	Software Design Automation in an IPSE. <i>S BEER, R WELLAND, I SOMMERVILLE</i> (UK)	89

IV	THE USER INTERFACE	99
	Knowledge-Based Editors for Directed Graphs. <i>W F TICHY, F J NEWBERY</i> (D)	101
	A User Interface Design Tool. <i>D ENGLAND</i> (UK)	110
	Interaction Models and the Principled Design of Interactive Systems. <i>A J DIX, M D HARRISON, C RUNCIMAN, H W THIMBLEBY</i> (UK)	118
V	THE INTERNALS OF ENVIRONMENTS : THE GUTS	127
	The Eclipse Two-Tier Database Interface. <i>J CARTMELL, A ALDERSON</i> (UK)	129
	Ten15: An Abstract Machine for Portable Environments. <i>I F CURRIE, J M FOSTER, P W CORE</i> (UK)	138
	Using Data Flow Specifications and Interactive Editing in the Operating System User Interface. <i>G SZWILLUS</i> (D)	149
VI	FORMAL SPECIFICATION	155
	Formalising Restructuring Operators in a Specification Process. <i>E DUBOIS</i> (B), <i>N LEVY, J SOUQUIERES</i> (F)	161
	Formal Specifications, Prototyping and Integration Tests. <i>C CHOPPY</i> (F)	172
	On the Specification of Real-Time Systems Using Logic Programming. <i>F GARZOTTO, C GHEZZI, D MANDRIOLI, A MORZENTI</i> (I)	180
VII	RE-USE	191
	A Property-Based Method for Selecting Among Multiple Implementations of Modules. <i>C S COLLBERG, M G KRAMPPELL</i> (S)	193
	SOFTBUS - An Approach to Software Engineering for Distributed Real-Time Long-Lifetime Spacecraft Data Management Systems. <i>R C ALLEN</i> (NL)	202
	Analysing Software Reuse at the Project and Module Design Levels. <i>R W SELBY</i> (USA)	212
	EIFFEL: Object-Oriented Design for Software Engineering. <i>B MEYER, J-M NERSON, M MATSUO</i> (USA)	221

VIII	VALIDATION	231
	The Dependability Approach to Critical Computing Systems. <i>J-C LAPRIE (F)</i>	233
	Automated Testing Techniques for Real-Time Embedded Software. <i>M A HENNELL, D HENDLEY, I J RIDDELL (UK)</i>	244
	TRICS: A Testing Tool for C. <i>B RAITHER (F), L OSTERWEIL (USA)</i>	254
	Experience with Fortran Verifier. A Tool for Documentation and Error Diagnosis of Fortran-77 Programs. <i>R CONRADI (N)</i>	263
IX	ARROWS, BOXES, CIRCLES (1)	277
	SPECIF-X: A Tool for CASE. <i>M LISSANDRE, B DeVAULX (F)</i>	279
	ProMod at the Age of 5. <i>P HRUSCHKA (D)</i>	288
	Formal Specification of Graphical Notations and Graphical Software Tools. <i>S HEKMATPOUR, M WOODMAN (UK)</i>	329
X	TOOLS FOR ADA	307
	High Level Interpretation of Execution Traces of Ada Tasks. <i>J-F CAILLET, Ch BONNET, B RAITHER (F)</i>	309
	A Software Development Environment for Ada. <i>M K CROWE, C NICOL, M E CORR, J W ORAM, D G JENKINS (UK)</i>	318
	An Execution Environment for the Formal Definition of Ada. <i>A FANTECHI, S GNESI, P INVERARDI, U MONTANARI (I)</i>	327
XI	ARROW, BOXES, CIRCLES (2)	337
	Automatic Program Synthesis from Data Structures. <i>D ENSELME, G BENAY, F-Y VILLEMIN (F)</i>	339
	A Set of Tools Supporting the Software Design Based on SDL. <i>H G TEMPEL (D)</i>	348
	Translation between Pragmatic Software Development Methods. <i>W J BLACK, A G SUTCLIFFE, P LOUCOPOULOS, P J LAYZELL (UK)</i>	357

XII	SPECIFIC TOPICS	367
	The Impact of Exception Handling on Labour Division, Safety and Error Diagnostics in an Industrial Software Engineering Environment.	
	<i>Ch KNABE (D)</i>	369
	Requirements Analysis for a Database Administration Support Environment.	
	<i>H M ROBINSON, J M EMMS (UK)</i>	377
	FORTUNE: A Documentation Support System for Software Engineers.	
	<i>D MULLIN (UK)</i>	387
	Strengths and Weaknesses of Program Verification Systems.	
	<i>D CRAIGEN (CDN)</i>	396
