<b>1</b>	<b>Introduction</b>	<b>1</b>
	Three Fundamental Areas Within the Industrial Organization of Banking	1
	Objectives . . . . .	2
	Bank Behavior and the Structure of Banking Markets . . . . .	3
	Bank Competition and Public Policy . . . . .	4
	Assessing Bank Regulation . . . . .	4
<b>2</b>	<b>The Banking Environment</b>	<b>7</b>
	The Bank Balance Sheet . . . . .	7
	Bank Assets . . . . .	7
	Bank Liabilities and Equity Capital . . . . .	11
	The Bank Income Statement . . . . .	13
	Interest Income . . . . .	13
	Noninterest Income . . . . .	14
	Interest Expenses . . . . .	14
	Expenses for Loan Loss Provisions . . . . .	15
	Real Resource Expenses . . . . .	15
	Bank Profitability Measures . . . . .	15
	Asymmetric Information and Risks in Banking . . . . .	17
	Adverse Selection . . . . .	17
	Moral Hazard . . . . .	17
	Risks on the Balance Sheet . . . . .	18
	Credit Risk . . . . .	18
	Market Risks . . . . .	18
	Liquidity Risk . . . . .	19
	Systemic Risk . . . . .	19
	Risks Off of Bank Balance Sheets . . . . .	19
	Loan Commitments . . . . .	20
	Securitization . . . . .	21
	Derivative Securities . . . . .	21
	Trends in U.S. Banking Industry Structure . . . . .	22
	Recent Patterns in U.S. Banking Structure . . . . .	22

Mergers, Acquisitions, and Concentration . . . . .	23
Summary: The Banking Environment . . . . .	25
<b>3 Alternative Perspectives on Bank Behavior . . . . .</b>	<b>27</b>
Identifying the Outputs and Inputs of a Bank . . . . .	27
What Banks Do: Alternative Perspectives on Bank Production . . . . .	27
Assessing the Economic Outputs and Inputs of Banks . . . . .	28
Banks as Portfolio Managers . . . . .	30
The Basic Bank Portfolio-Management Model . . . . .	30
Limitations of Portfolio Management Models . . . . .	31
Banks as Firms . . . . .	32
A Perfectly Competitive Banking Industry . . . . .	32
Imperfectly Competitive Banking Markets . . . . .	40
Summary: Models of the Banking Firm . . . . .	50
<b>4 The Industrial Economics of Banking . . . . .</b>	<b>53</b>
The Structure-Conduct-Performance Paradigm in Banking . . . . .	53
The SCP Hypothesis with Identical Banks . . . . .	54
Structural Asymmetry, Dominant Banks, and the SCP Paradigm . . . . .	55
Evaluating the Applicability of the SCP Paradigm to the Banking Industry . . . . .	58
Market Structure and Bank-Customer Relationships . . . . .	63
Basic Market-Structure Implications of Bank-Customer Relationships . . . . .	64
Evidence on Bank-Customer Relationships . . . . .	66
The Efficient Structure Theory and Banking Costs . . . . .	69
The Efficient Structure Challenge to the SCP Paradigm . . . . .	70
Efficient Structure Theory and Bank Performance . . . . .	72
Endogenous Sunk Fixed Costs and Banking Industry Structure . . . . .	74
Endogenous Sunk Costs and Concentration . . . . .	75
Non-Price Competition in Banking: Implicit Deposit Rates Versus Quality Rivalry . . . . .	76
Evidence on Advertising Outlays in the Banking Industry . . . . .	77
Endogenous Sunk Costs and the Banking Industry . . . . .	78
Summary: The Industrial Organization of Banking . . . . .	80
<b>5 The Economics of Banking Antitrust . . . . .</b>	<b>83</b>
Why Banks Merge . . . . .	83
Profit Enhancements from Mergers . . . . .	83
Diversification Benefits of Bank Mergers . . . . .	86
Assessing Loan and Deposit Market Effects of Bank Consolidation . . . . .	87
Mergers in Initially Perfectly Competitive Banking Markets . . . . .	87
Mergers in Initially Imperfectly Competitive Banking Markets . . . . .	89
Evidence on the Consequences of Banking Consolidation . . . . .	90
Banking Antitrust in Practice . . . . .	94
U.S. Bank Merger Guidelines . . . . .	94
Evaluating the U.S. Bank Merger Guidelines . . . . .	97

Antitrust Issues in Bank Payment Networks . . . . .	104
Bank Cards and Two-Sided Markets . . . . .	105
Regulatory and Antitrust Issues in Card Payment Networks . . . . .	112
Summary: Banking Antitrust . . . . .	113
<b>6 Bank Competition, Stability, and Regulation . . . . .</b>	<b>115</b>
Banks as Issuers of Demandable Debt . . . . .	116
The Diamond–Dybvig Model . . . . .	116
The Diamond–Dybvig Intermediation Solution and the Problem of Runs . . . . .	117
Evaluating the Diamond–Dybvig Analysis . . . . .	118
Banks as Screeners and Monitors . . . . .	120
Evidence on Bank Monitoring Activities . . . . .	120
A Monitoring Model with Heterogeneous Banks . . . . .	123
The Relationship between Banking Competition and Risks . . . . .	127
Perfect Competition and Bank Risks . . . . .	127
Market Power and Bank Risks: Theory and Evidence . . . . .	130
Deposit Insurance, “Too Big to Fail” Doctrine, Basel I, and Basel II . . . . .	132
Basel I, Capital Regulation, and the Three Pillars of Basel II . . . . .	135
Summary: Bank Competition, Stability, and Regulation . . . . .	136
<b>7 Capital Regulation, Bank Behavior, and Market Structure . . . . .</b>	<b>139</b>
The Portfolio Management Perspective on Capital Regulation . . . . .	139
The Bank as a Competitive, Mean-Variance Portfolio . . . . .	140
Manager Facing Capital-Constrained Asset Portfolios . . . . .	142
Taking Deposit Insurance Distortions into Account . . . . .	142
Explaining the Mixed Implications of Portfolio Management Models . . . . .	143
Asset-Liability Management under Capital Regulation . . . . .	145
An Incentive-Based Perspective on Capital Regulation . . . . .	145
Incentives and Capital Requirements . . . . .	146
Demandable Debt, Bank Risks, and Capital Regulation . . . . .	152
Capital Regulation and Fragile Deposits . . . . .	152
Moral Hazard, Bank Lending and Monitoring, and Capital Regulation . . . . .	154
Capital Regulation and Bank Heterogeneities . . . . .	156
Adverse Selection and Capital Regulation . . . . .	156
Capital Requirements, Heterogeneous Banks, and Industry Structure . . . . .	157
Capital Regulation, Credit Shocks, and Procyclicality and Risk . . . . .	160
Does Toughening Capital Requirements Boost Bank Capital Ratios and Create Credit Shocks? . . . . .	161
Procyclical Features of a Capital-Regulated Banking Industry . . . . .	163
Empirical Evidence on Procyclical Effects of Capital Regulation . . . . .	165
Summary: Capital Regulation, Bank Behavior, and Market Structure . . . . .	166
<b>8 Market Discipline and the Banking Industry . . . . .</b>	<b>169</b>
The Market Discipline Pillar of Basel II . . . . .	170
The Channels of Market Discipline . . . . .	171

Potential Benefits and Costs of Market Discipline in Banking . . . . .	173
Evaluating Incentives for Information Disclosure . . . . .	173
Ways to Enhance Bank Market Discipline . . . . .	174
<b>Industry Structure and Market Discipline . . . . .</b>	<b>177</b>
Market Discipline in a Basic Banking Model . . . . .	177
Market Power, Information Disclosure, and Market Discipline . . . . .	178
<b>Evidence on Market Discipline's Effectiveness . . . . .</b>	<b>180</b>
Information Content of Market Prices and Bond Yield	
Spreads under Basel I . . . . .	181
Market Discipline versus Regulation . . . . .	182
Evidence on Bank Information Disclosure . . . . .	185
<b>Evaluating the Market Discipline Pillar vis-à-vis the Other Pillars of Basel II . . . . .</b>	<b>187</b>
The Limitations of Market Discipline under Basel II . . . . .	187
Theory versus Reality under Basel II's Market Discipline Pillar . . . . .	188
Summary: Market Discipline and the Banking Industry . . . . .	189
<b>9 Regulation and the Structure of the Banking Industry . . . . .</b>	<b>193</b>
Public Interest versus Public Choice Perspectives on Bank Regulation . . . . .	194
Public Interest and the Alleged "Need" for Bank Regulation . . . . .	194
Public Choice Motivations for Bank Regulation . . . . .	194
The Political Economy of Banking Supervision Conducted by Multiple Regulators: Is a "Race to the Bottom" Unavoidable? . . . . .	199
Regulatory Preferences and Bank Closure Policies . . . . .	199
Competition among Bank Regulators . . . . .	201
Should Bank Regulation Be in the Hands of Monetary Policymakers? . . . . .	205
The Supervisory Review Process Pillar of Basel II . . . . .	207
The Supervisory Review Process Pillar: Conceptual Issues . . . . .	209
When Is International Coordination of Bank Regulation Appropriate? . . . . .	212
Is There Really a Basel II Supervisory Review Process? . . . . .	213
Regulatory Compliance Costs and Industry Structure . . . . .	214
Assessing Banks' Costs of Basel II Compliance: Economies of Regulation? . . . . .	214
Bank Regulation and Endogenous Fixed Costs . . . . .	220
Summary: Regulation and Bank Industry Structure . . . . .	222
