8	Solutions to the Exercises of Chapter VIII (Complement C_{VIII} , § 3). An Elementary Approach to the Quantum Theory of Scattering by a Potential 1	
8.1	Scattering of the p Wave by a Hard Sphere 1	
8.2		6
9	Solutions to the Exercises of Chapter IX (Complement B_{IX}).	
	Electron Spin 21	
9.1	Spin-Related Measurements of a Particle of Spin 1/2 21	
9.2	An Operator Coupling Momentum P and Spin S 26	
9.3	The Pauli Hamiltonian 29	
9.4	Polarization of a Neutron Beam by Reflection 31	
10	Solutions to the Exercises of Chapter X (Complement G_X).	
	Addition of Angular Momenta 43	
10.1	The Deuterium Atom 43	
10.2	The Hydrogen Atom 45	
10.3	Two-Particle System 49	
10.4	Disintegration of a Particle 52	
10.5	Three-Particle System 56	
10.6	Two-Particle System and Collision 59	
10.7	Standard Components of a Vector Operator 71	
10.8	Irreducible Tensor Operators; Wigner-Eckart Theorem 79	
10.9	Irreducible Tensor Operators (Follow-up Exercise) 90	
10.10	Addition of Three Angular Momenta 95	
	References 103	

vi	Contents

11	Solutions to the Exercises of Chapter XI (Complement H _{XI}).
11.1	Stationary Perturbation Theory 105 Punctual Perturbation in an Infinite One-Dimensional Well 105
11.1	Localized Perturbation in an Infinite Two-Dimensional Well 110
11.3	Perturbations in a Two-Dimensional Harmonic Oscillator 114
11.4	Perturbed Circular Motion of a Quantum System 127
11.5	Three-Dimensional Perturbation 136
11.6	One Electronic and Two Nuclear Spins, Spin-Spin Interactions 143
11.7	Interaction Between a Nuclear Spin and an Electric Field via its Electric
11.7	Quadrupole and Magnetic Dipole Moments 152
11.8	Linear Perturbation Within an Infinite One-Dimensional Well and
11.0	Variational Method 163
11.9	The Hydrogen Atom and the Variational Method 171
11.10	Determination of the Energies of a Particle in an Infinite
11.10	
	One-Dimensional Well Using the Variational Method 173
12	Solutions to the Exercises of Chapter XII. An Application of
	Perturbation Theory: The Fine and Hyperfine Structure of
	Hydrogen 183
13	Solutions to the Exercises of Chapter XIII. Approximation
	Methods for Time-Dependent Problems 185
	Part I: Solutions to the Exercises of Complement B _{XIII} . Linear and Nonlinear Responses of a Two-Level System Subjected to a Sinusoidal Perturbation 185
	Nonlinear Responses of a Two-Level System Subjected to a
13.1	Nonlinear Responses of a Two-Level System Subjected to a
13.1	Nonlinear Responses of a Two-Level System Subjected to a Sinusoidal Perturbation 185
13.1 13.2	Nonlinear Responses of a Two-Level System Subjected to a Sinusoidal Perturbation 185 Competition Between Pumping and Relaxation in a Two-Level
	Nonlinear Responses of a Two-Level System Subjected to a Sinusoidal Perturbation 185 Competition Between Pumping and Relaxation in a Two-Level System 185
	Nonlinear Responses of a Two-Level System Subjected to a Sinusoidal Perturbation 185 Competition Between Pumping and Relaxation in a Two-Level System 185 Nonlinear Response of a Two-Level System Subjected to a Sinusoidal Perturbation 189
	Nonlinear Responses of a Two-Level System Subjected to a Sinusoidal Perturbation 185 Competition Between Pumping and Relaxation in a Two-Level System 185 Nonlinear Response of a Two-Level System Subjected to a Sinusoidal Perturbation 189
	Nonlinear Responses of a Two-Level System Subjected to a Sinusoidal Perturbation 185 Competition Between Pumping and Relaxation in a Two-Level System 185 Nonlinear Response of a Two-Level System Subjected to a Sinusoidal Perturbation 189
13.2	Nonlinear Responses of a Two-Level System Subjected to a Sinusoidal Perturbation 185 Competition Between Pumping and Relaxation in a Two-Level System 185 Nonlinear Response of a Two-Level System Subjected to a Sinusoidal Perturbation 189 Part II: Solutions to the Exercises of Complement F _{XIII} 198
13.2	Nonlinear Responses of a Two-Level System Subjected to a Sinusoidal Perturbation 185 Competition Between Pumping and Relaxation in a Two-Level System 185 Nonlinear Response of a Two-Level System Subjected to a Sinusoidal Perturbation 189 Part II: Solutions to the Exercises of Complement F _{XIII} 198 One-Dimensional Harmonic Oscillator Subjected to an Electric Field
13.2	Nonlinear Responses of a Two-Level System Subjected to a Sinusoidal Perturbation 185 Competition Between Pumping and Relaxation in a Two-Level System 185 Nonlinear Response of a Two-Level System Subjected to a Sinusoidal Perturbation 189 Part II: Solutions to the Exercises of Complement F _{XIII} 198 One-Dimensional Harmonic Oscillator Subjected to an Electric Field Pulse 198
13.2 13.1 13.2	Nonlinear Responses of a Two-Level System Subjected to a Sinusoidal Perturbation 185 Competition Between Pumping and Relaxation in a Two-Level System 185 Nonlinear Response of a Two-Level System Subjected to a Sinusoidal Perturbation 189 Part II: Solutions to the Exercises of Complement F _{XIII} 198 One-Dimensional Harmonic Oscillator Subjected to an Electric Field Pulse 198 Spin-Spin Interactions During a Collision 205
13.2 13.1 13.2 13.3	Nonlinear Responses of a Two-Level System Subjected to a Sinusoidal Perturbation 185 Competition Between Pumping and Relaxation in a Two-Level System 185 Nonlinear Response of a Two-Level System Subjected to a Sinusoidal Perturbation 189 Part II: Solutions to the Exercises of Complement F _{XIII} 198 One-Dimensional Harmonic Oscillator Subjected to an Electric Field Pulse 198 Spin-Spin Interactions During a Collision 205 Two-Photon Transitions Between Non-equidistant Levels 211
13.2 13.1 13.2 13.3	Nonlinear Responses of a Two-Level System Subjected to a Sinusoidal Perturbation 185 Competition Between Pumping and Relaxation in a Two-Level System 185 Nonlinear Response of a Two-Level System Subjected to a Sinusoidal Perturbation 189 Part II: Solutions to the Exercises of Complement F _{XIII} 198 One-Dimensional Harmonic Oscillator Subjected to an Electric Field Pulse 198 Spin-Spin Interactions During a Collision 205 Two-Photon Transitions Between Non-equidistant Levels 211 Magnetic Response of a System Placed in an Oscillating Magnetic Field 216 The Autler-Townes Effect 220
13.2 13.1 13.2 13.3 13.4	Nonlinear Responses of a Two-Level System Subjected to a Sinusoidal Perturbation 185 Competition Between Pumping and Relaxation in a Two-Level System 185 Nonlinear Response of a Two-Level System Subjected to a Sinusoidal Perturbation 189 Part II: Solutions to the Exercises of Complement F _{XIII} 198 One-Dimensional Harmonic Oscillator Subjected to an Electric Field Pulse 198 Spin-Spin Interactions During a Collision 205 Two-Photon Transitions Between Non-equidistant Levels 211 Magnetic Response of a System Placed in an Oscillating Magnetic Field 216 The Autler-Townes Effect 220 Elastic Scattering by a Particle in a Bound State. Form Factor 229
13.2 13.1 13.2 13.3 13.4	Nonlinear Responses of a Two-Level System Subjected to a Sinusoidal Perturbation 185 Competition Between Pumping and Relaxation in a Two-Level System 185 Nonlinear Response of a Two-Level System Subjected to a Sinusoidal Perturbation 189 Part II: Solutions to the Exercises of Complement F _{XIII} 198 One-Dimensional Harmonic Oscillator Subjected to an Electric Field Pulse 198 Spin-Spin Interactions During a Collision 205 Two-Photon Transitions Between Non-equidistant Levels 211 Magnetic Response of a System Placed in an Oscillating Magnetic Field 216 The Autler-Townes Effect 220 Elastic Scattering by a Particle in a Bound State. Form Factor 229 A Simple Model of the Photoelectric Effect 234
13.2 13.1 13.2 13.3 13.4 13.5 13.6	Nonlinear Responses of a Two-Level System Subjected to a Sinusoidal Perturbation 185 Competition Between Pumping and Relaxation in a Two-Level System 185 Nonlinear Response of a Two-Level System Subjected to a Sinusoidal Perturbation 189 Part II: Solutions to the Exercises of Complement F _{XIII} 198 One-Dimensional Harmonic Oscillator Subjected to an Electric Field Pulse 198 Spin-Spin Interactions During a Collision 205 Two-Photon Transitions Between Non-equidistant Levels 211 Magnetic Response of a System Placed in an Oscillating Magnetic Field 216 The Autler-Townes Effect 220 Elastic Scattering by a Particle in a Bound State. Form Factor 229
