Preface	
An Analysis of the Unilateral Contact Problem with Friction of Beams and Plates on an Elastic Half-Space <i>by L. Ascione and D. Bruno</i>	I
Probabilistic Treatment of Structural Problems with Unilateral Constraints <i>by A. Baratta</i>	21
A Numerical Algorithm for Signorini's Problem with Coulomb Friction <i>by H.J.C. Barbosa and R.A. Feijóo</i>	33
Generalization of Newton-Type Methods to Inelastic Contact Problems <i>by D. Bishoff</i>	47
Confronto tra Esperimento e Modello Teorico per un Problema di Strutture in Muratura <i>by S. Briccoli Bati, S. Di Pasquale, M. Paradiso, G. Tempesta, U. Tonietti</i>	61
Applications of the Masonry Unilateral Model to the Limit Analysis of Buildings Loaded by Horizontal Forces <i>by M. Como and A. Grimaldi</i>	81
TACT: A Contact Analysis Program <i>by A. Curnier</i>	97
Contact Unilatéral avec Adhérence — Une Théorie du Premier Gradient <i>by M. Fremond</i>	117
Existence Results for Minima of Non-Coercive Functionals and Applications to Unilateral Problems in Elasticity <i>by F. Gastaldi</i>	139
Dynamics in the Presence of Unilateral Contacts and Dry Friction: a Numerical Approach <i>by M. Jean and J.J. Moreau</i>	151

Contact Problems with Friction by Linear Complementarity by <i>A. Klarbring</i>	197
Generalized Variational Principles and Unilateral Constraints in Analytical Mechanics by <i>H.O. May</i>	221
Ioffe's Fans and Unilateral Problems: a New Conjecture by <i>P.D. Panagiotopoulos</i>	239
Codes d'Elements Finis pour des Problèmes de Contacts Unilatéraux avec Frottement Formulés en Termes d'Inéquations Variationnelles by <i>M. Raous and J.C. Latil</i>	259
Convex Problems in Structural Mechanics by <i>G. Romano and E. Sacco</i>	279
Unilateral Contact between a Geometrically Non-Linear Plate and Elastic Foundation. A Model of Delamination Phenomena in a Two-Layered Composite by <i>D. Shilkrut</i>	299
List of Participants	313
