

TABLE OF CONTENTS

DAY 1

Computing is a Physical Science (Abstract) Donald I. Good; Computational Logic, Inc., Texas, USA	1
Structuring for the VDM Specification Language Stephen Bear; CEGB, London, UK	2
Correctness for Beginners Maurice Naftalin; Univ. of Stirling, UK	26
Understanding an Informal Description: Office Documents Architecture, an ISO Standard Andrzej Borzyszkowski, Stefan Sokolowski; Polish Ac. of Science, Gdańsk, Poland	48
Towards a Formal Definition of GKS and Other Graphics Standards Clive Ruggles; Univ. of Leicester, UK	64
Report from the BSI Panel for the Standardisation of VDM (IST/5/50) Derek Andrews; Univ. of Leicester, UK	74
Formal Methods in Standards - A Report from the BCS Working Group Clive Ruggles; Univ. of Leicester, UK	79

DAY 2

The B Tool (Abstract) J.R. Abrial; Paris, France	86
Specification of an Operating System Kernel FOREST and VDM Compared S.J. Goldsack; Imperial College, London, UK	88

APPLICATIONS AND TOOLS

Compiler Prototyping with VDM and Standard ML R.D. Arthan; ICL, Winnersh, UK	101
VDM Development with Ada as the Target Language David O'Neill; Generics, Dublin, Ireland	116
NUSL: An Executable Specification Language Based on Data Abstraction XinJie Jiang, YongSen Xu; Nanjing Normal Univ.; Shantou Univ., Guangdong, China	124
A Support System for Formal Reasoning: Requirements and Status C.B. Jones, P.A. Lindsay; Manchester Univ., UK	139
The Use of VDM Within the Alvey Flagship Project Graham Boddy; ICL, Manchester, UK	153
The Formal Definition of Modula-2 and Its Associated Interpreter D.J. Andrews, A. Garg, S.P.A. Lau, J.R. Pitchers; Univ. of Leicester, UK	167
Test Case Selection Using VDM G.T. Scullard; ICL, Manchester, UK	178
The VIP VDM Specification Language Kees Middelburg; PTT, Leidschendam, The Netherlands	187
SAMPLE - A Functional Language M. Jäger, M. Gloger, S. Kaes; Techn. Hochschule, Darmstadt, Germany	202

FOUNDATIONS AND THEORY

A Three-valued Logic for Software Specification and Validation Beata Konikowska, Andrzej Tarlecki, Andrzej Blikle; Polish Ac. of Science, Warsaw, Poland	218
--	-----

Three-valued Predicates for Software Specification and Validation

Andrzej Blikle; Polish Ac. of Science, Warsaw, Poland 243

A Set-Theoretic Model for a Typed Polymorphic Lambda Calculus. A Contribution to MetaSoft

Andrzej Borzyszkowski, Ryszard Kubiak, Stefan Sokolowski; Polish Ac. of Science, Gdańsk, Poland 267

Mutually Recursive Algebraic Domain Equations

Anna Elisabeth Haxthausen; Technical Univ. of Denmark, Lyngby, Denmark 299

Proof Rules for VDM Statements

Robert Milne; STC, Harlow, UK 318

Muffin: A User Interface Design Experiment for a Theorem Proving Assistant

Cliff B. Jones, Richard Moore; Manchester Univ., UK 337

DAY 3

The RAISE Language, Method and Tools

Mogens Nielsen, Klaus Havelund, Kim Ritter Wagner, Chris George; DDC, Lyngby, Denmark; STC, London, UK 376

Correctness Proofs for Meta IV Written Code Generator Specifications Using Term Rewriting

Bettina and Karl-Heinz Buth; Christ.-Albrechts-Univ. zu Kiel, Germany 406

Using VDM with Rely and Guarantee-Conditions. Experiences from a Real Project

J.C.P. Woodcock, B. Dickinson; Oxford Univ.; GEC, Coventry, UK 434

Software Support for the Refinement of VDM Specifications

P. Kilpatrick, P. McParland; The Queen's Univ. of Belfast, UK 459

The Use of VDM in the Specification of Chinese Characters

Ghee S. Teo, Mícheál Mac an Airchinnigh; Trinity College, Dublin, Ireland 476
