<i>Chapter 1 Positions in Operative Andrology</i>	1	<i>Chapter 9 Prostate</i>	61
1.1 Supine Position	3	9.1 Enucleation (Suprapubic – Transvesical)	63
1.2 Pelvic Position	4	9.2 Transurethral Resection	67
1.3 Lithotomy Position	5	9.3 Perineal Prostate-Vesiculectomy	71
		9.4 Retropubic Prostate-Vesiculectomy	76
		9.4.1 Ascending Technique	76
		9.4.2 Descending Technique	79
<i>Chapter 2 Skin Incisions in Operative Andrology</i>	7	9.5 Pelvic Lymph System Dissection	82
2.1 Scrotal Incision	9		
2.2 Infrapubic Incision	11	<i>Chapter 10 Male Urinary Incontinence</i>	87
2.3 Suprapubic Incision (Pfannenstiel) (Lower Abdominal Transverse Incision)	14	10.1 Hauri Procedure	89
		10.2 Tanagho-Smith Procedure	92
<i>Chapter 3 Scrotum</i>	17		
3.1 Reconstruction of the Scrotum	19	<i>Chapter 11 Urethra</i>	95
		11.1 Reconstruction of the Urethra	97
<i>Chapter 4 Testis and Testicular Membranes</i>	21	11.1.1 Denis Browne Procedure	97
4.1 Funiculolysis and Orchidopexy	23	11.1.2 Byars Procedure	101
4.2 Testicular Biopsy	26	11.1.3 Cecil Procedure	104
4.3 Exploration for Torsion of Testis	27	11.1.4 Ombrédanne Procedure	107
4.4 Exploration of Testicular Appendages	28	11.1.5 Modified Allen-Spence Procedure	109
4.5 Orchidectomy	29	11.1.6 King Procedure	114
4.5.1 Simple Orchidectomy	29	11.1.7 Devine-Horton Procedure	117
4.5.2 Radical Orchidectomy	30	11.1.8 Epispadias Repair	121
4.5.3 Testicular Prostheses	31	11.2 Operations for Stenoses of Meatus	124
4.5.4 Retroperitoneal Lymph System Dissection	32	11.2.1 Meatotomy	124
4.6. Hydrocelectomy	34	11.2.2 Meatoplasty	125
		11.3 Repair of Urethral Fistulae	126
<i>Chapter 5 Epididymis</i>	35	11.3.1 Pedicled Penile Skin Flap Technique	126
5.1 Spermatocelectomy	37	11.3.2 Two-Layer Repair	128
5.2 Alloplastic Spermatocele	38	11.4 Diverticulectomy	130
5.3 Epididymovasostomy	40	11.4.1 Two-Layer Repair	130
5.4 Epididymectomy	43	11.4.2 Penile Denudation Technique	131
		11.5 Urethrotomy	133
<i>Chapter 6 Vas Deferens</i>	45	11.5.1 Non-Visual Urethrotomy	133
6.1 Operation für Sterilization (Vasodiatomy, S.S.Schmidt Procedure)	47	11.5.2 Visual Urethrotomy	134
6.2 Vasovasostomy	49	11.6 Operations for Urethral Tumors	135
		11.6.1 Transurethral Resection	135
<i>Chapter 7 Testicular Vein</i>	51	11.6.2 Urethrectomy	136
7.1 High Ligation of Testicular Vein	53		
7.1.1 Muscle Splitting Flank Incision	53	<i>Chapter 12 Penile Skin</i>	139
7.1.2 Pararectal Incision	55	12.1 Circumcision	141
		12.1.1 Gomco Clamp Technique	141
<i>Chapter 8 Seminal Vesicles</i>	57	12.1.2 Conventional Technique	145
8.1 Vesiculectomy (Suprapubic – Extravesical)	59	12.2 Operation for Paraphimosis	146
		12.3 Frenuloplasty	147
		12.4 Reconstruction of the Penile Skin	148
		12.5 Reconstruction of Congenital Penile Skin Deformities	150
		12.5.1 Operation for Concealed Penis	150

12.5.2 Operation for Webbed Penis	151
12.5.3 Operation for Torsion of the Penis . . .	152

Chapter 13 Corpus Cavernosum Penis 153

13.1 Penile Amputation	155
13.2 Penectomy	157
13.3 Emasculation (Penectomy and Bilateral Orchidectomy)	160
13.4 Construction of the Vulva and Vagina	162
13.5 Construction of the Penis	166
13.6 Ileo-Inguinal Lymph System Dissection . . .	170
13.7 Operation for Priapism	172
13.8 Operation for Peyronie Disease	173
13.8.1 Excision of the Plaques and Duraplasty	173
13.8.2 Implantation of Penile Protheses without Plaque Surgery	177
13.9 Operation for Penile Deviation	179
13.10 Operations for Microphallus	181
13.10.1 Johnston Procedure	181
13.10.2 Hinman Procedure	183
13.11 Chordectomy and Straightening of the Penis .	186
13.11.1 Meyer-Burgdorff Procedure	186
13.11.2 Johnston Procedure	190
13.12 Operation for Erectile Impotence	194
