

Contents

Section I: Morphology

Chairman: E.G.J. Olsen

P.J. Richardson:

Endomyocardial Biopsy Technique 3

A. Torp:

Morphological Analysis of Myocardial Biopsies Correlated to Different Types of Heart Disease 8

E.G.J. Olsen:

Morphological Evaluation (Histologic, Histochemical, and Ultrastructural) of Endomyocardial Biopsies 13

G. Hübner:

A Case of Fabry's Disease of the Heart 20

K. Kuhn, H.-J. Knieriem, G. Breithardt, W. Hort, and F. Loogen:

Diagnostic Aspects of Endomyocardial Catheter Biopsy (EMCB): Clinical and Morphological Correlations 22

B. Kunkel, M. Schneider, G. Kober, K. Hübner, and M. Kaltenbach:

Light and Electron Microscopic Evaluations in Early Cardiomyopathy 35

H. Themann, W. Mönninghoff, M. Fleischer, H. Warmuth, and R.-S. Achatzy:

The Ultrastructure of the Hypertrophied Ventricular Myocardium in the Presence of Acquired and Congenital Vitium Cordis 44

M. Fleischer and H. Warmuth:

Ultrastructural Morphometric Analysis on Normal Loaded and on Hypertrophied Human Myocardial Left Ventricles 49

Section II: Morphometry and Immunology

Chairman: J.F. Goodwin

U. Baandrup, E.G.J. Olsen, and R.A. Florio:

Morphometric Aspects of Endomyocardial Biopsies in Cardiomyopathy: A Light Microscopic Study 55

O.M. Hess, J. Schneider, S. Heeb, and P. Krayenbuehl:

Left Ventricular Endomyocardial Biopsy in Patients with Primary and Secondary Myocardial Hypertrophy 65

L. Storstein, S. Simon, O. Mellbye, and S. Nitter-Hauge:
Immunologic Studies of Endomyocardial Biopsies 77

H.-D. Bolte, P. Schultheiss, J. Cyran, and F. Goss:
Binding of Immunoglobulins in the Myocardium (Biopsies) in
Cardiomyopathies 85

Section III: Biochemistry

Chairman: G. Riecker

P.J. Richardson and L. Atkinson:
Enzyme Activities in Endomyocardial Biopsy Samples from Patients
with Cardiomyopathy 97

H.-P. Schultheiß, H.-D. Bolte, and J. Cyran:
Lactate Dehydrogenase Isoenzyme Pattern in Myocardial Biopsies of
Patients with Congestive Cardiomyopathy and with Alcoholic Cardio-
myopathy – Clinical and Experimental Results 102

A.P. Waterson:
Coxsackie Viruses in Acute and Chronic Cardiac Disease 116

J. Zähringer and B. Höfling:
Adriamycin-Cardiomyopathy: Changes in Myocardial Polyribosome
and mRNA Levels 119

H. Petitier, D. Crochet, Y. Bizais, J. de Laguerenne, and A. Leclercq:
Acute Hemodynamic Effects on Sublingual Nitroglycerin in Idiopathic
Dilated Cardiomyopathy 131

Subject Index 143
