List of Authors	XV
Introduction.	XVII

General Chapters (Chapter I—III)

Chapter I: The Scope and General Pathology of Human Infection with Fungi, Actinomycetes, and Algae. R. D. BAKER, New Brunswick, New Jersey, USA	1
The Causative Organisms	1
Fungus Diseases	2
The Distribution and Epidemiology of Fungus Diseases	2
How Pathogenic Fungi Infect Man	3
Mycoses Associated with Lowered Host Resistance, and Caused by Fungi which are usually Nonpathogenic and "Opportunistic"	4
Fungi as Inflammatory Irritants	4
Tissue Changes in Fungus Diseases	5
Morbidity and Mortality in Mycotic Disease	6
The Demonstration of Fungi in Tissues	6
Examination for Fungi at Postmortem Examination and in Surgical Specimens	9
Infection by Actinomycetes	10
Infection by Algae	10
References.	10
 Chapter II: Mycology of the Agents Producing Deep Mycoses. J. SCHWARZ, Cincinnati, Ohio, USA (With 21 Figures).	12
Different Mechanisms of Conversion from M to Y Phase	12
Blastomyces Dermatitidis	13
Blastomyces (Paracoccidioides) Brasiliensis	17
Histoplasma Capsulatum	19
Histoplasma Duboisii	23
Sporotrichum Schenckii	24
Cryptococcus Neoformans	27
Candida Albicans	29
Coccidioides Immitis	31
Dematiaceous Fungi	34
References.	36
 Chapter III: Ultrastructure of Human Pathogenic Fungi and Their Mycoses. L. M. CARBONELL, Caracas, Venezuela (With 25 Figures)	38
Introduction	38
Methods.	38
Cell Wall	39
The Cell Contents	45
Developmental Studies	50
Action of Drugs on Fine Structure of Pathogenic Fungi	54
Action of Ultrasound on Pathogenic Fungi	55
Fine Structure of Mycoses	55
Actinomycetes, Nocardia and Streptomyces	58
Concluding Remarks	63
References.	64

The Great Endemic Mycoses (Chapter IV—VII)

Chapter IV: Histoplasmosis. J. SCHWARZ, Cincinnati, Ohio, USA (With 35 Figures)	67
Definition	66
History	66

Epidemiology	68
Geographic Pathology	68
Mycology	69
Staining of <i>Histoplasma Capsulatum</i> in Tissues	71
Pathogenesis	75
The Primary Lesion in the Lung	79
Histoplasmoma	84
Cavitary Histoplasmosis	87
"Epidemic" Histoplasmosis	90
The Spleen	92
The Liver	95
Bone-Marrow, Bone and Joints	95
Lymph Nodes	98
Lymphoma and Histoplasmosis	102
Heart and Mediastinum	103
Interpretation of Indirect Diagnostic Methods	105
Adrenals	107
Mucocutaneous Histoplasmosis	109
Larynx	111
Gastrointestinal Tract	112
Genitourinary System	115
Brain, Meninges and Eye	116
Associated Diseases	119
References	121
 Chapter V. Part 1: African Histoplasmosis. G.M. EDINGTON, Ibadan, Nigeria (With 1 Figure)	131
References	137
 Chapter V. Part 2: African Histoplasmosis. J. SCHWARZ, Cincinnati, Ohio, USA (With 4 Figures)	139
Geography	139
The Organism <i>H. Duboisii</i> Vanbreuseghem	139
References	145
 Chapter VI: Coccidioidomycosis. R.W. HUNTINGTON, Jr., Bakersfield, California, USA (With 36 Figures)	147
I. Definition, Synonymy	147
II. History	150
a) Clinical and Pathologic Studies	150
b) Character and Ecology of the Organism	161
III. Biology	167
a) The Fungus	167
b) The Infection	170
IV. Geographical Pathology	172
V. Diagnosis	174
a) Skin Tests	175
b) Serologic Studies	176
c) Wet Mounts	177
d) Cultures	178
VI. Pathologic Anatomy	179
a) Basic Pathologic Processes	179
b) Sources of Material	181
c) Lesions in Fatal Coccidioidomycosis	183
VII. Categories of Grave and Fatal Coccidioidomycosis	187
VIII. Demonstration of <i>Coccidioides</i> in Tissue Sections	199
Mycelial Phase — <i>C. Immitis</i> in Tissue	201
References	202

Chapter VII: Dermal Pathology of Superficial Fungus Infections. J. H. GRAHAM, Irvine, California, USA, and C. BARROSO-TOBILA, Maracaibo, Venezuela (With 156 Figures)	211
Introduction	211
Material and Methods	212
Tinea Capitis	214
1. Introduction	214
2. Microsporum Audouinii and Microsporum Canis	215
3. Microsporum Gypseum	230
4. Trichophyton Schoenleinii	233
5. Trichophyton Mentagrophytes	239
6. Trichophyton Tonsurans and Trichophyton Sulfureum	243
7. Trichophyton Violaceum	252
8. Summary and Conclusions	256
Tinea Barbae, Tinea Faciei, Tinea Corporis, Tinea Manuum, Tinea Cruris, Tinea Pedis and Tinea Unguium	257
1. Introduction	257
2. Trichophyton Rubrum	258
3. Trichophyton Mentagrophytes	292
4. Trichophyton Verrucosum	304
5. Trichophyton Violaceum	308
6. Trichophyton Concentricum	310
7. Trichophyton Tonsurans and Trichophyton Sulfureum	313
8. Trichophyton Epilans	315
9. Microsporum Audouinii and Microsporum Canis	321
10. Microsporum Gypseum	325
11. Epidermophyton Floccosum	332
Cutaneous Candidiasis	335
Tinea Versicolor	342
Pityrosporum Folliculitis	347
Tinea Nigra	352
Piedra	359
Erythrasma	370
References	377

Infections by Fungi That Are Commonly Primary Pathogens (Chapter VIII—XV)

Chapter VIII: Cryptococcosis. K. SALFELDER, Mérida, Venezuela (With 68 Figures)	383
Definition	383
History	384
Incidence	385
Associated Diseases	388
Epidemiology	390
Mycology	393
Pathogenesis	401
Pathology	405
Diagnosis and Differential Diagnosis	436
Clinical Aspects	439
Animals	441
References	445

Chapter IX: North American Blastomycosis. E.W. CHICK, Lexington, Kentucky, USA (With 40 Figures)	465
Definition	465
Epidemiology	466
a) Geographical Distribution	466
a) Cases from North America (USA and Canada)	466
b) Cases outside North America	466
b) Age Distribution	466
c) Sex Distribution	468
d) Racial Distribution	468
e) Occupation	468

f) Epidemics	469
g) Natural Occurrence of Organism	470
Mycology	470
a) Cultural Characteristics	470
β) Clinical Specimens	474
γ) Animal Inoculation	475
Pathogenesis and Immunology	475
Pathology	476
a) General Pathology	476
b) Special Pathology	479
Lung	479
Skin	481
Bone	485
Genitourinary Tract	486
Liver and Spleen	491
Other Organs	493
Central Nervous System	497
Clinical Features	500
Therapy	502
References	503
 Chapter X: Paracoccidioidomycosis . A. ANGULO O., and L. POLLAK, Caracas, Venezuela (With 70 Figures)	507
History	507
Etiology	507
Epidemiology	511
Portal of Entry	513
Histopathology	514
Clinical Forms	523
Mucocutaneous Lesions	525
a) Mucosal Lesions	527
b) Cutaneous Lesions	529
Pulmonary Lesions	531
Lesions of Lymph Nodes	542
Lesions of the Spleen	543
Lesions of the Nervous System	545
Lesions of the Cardiovascular System	545
Lesions of the Digestive System	547
Hepatic Lesions	550
Pancreatic Lesions	551
Lesions of Endocrine Glands	551
Urinary Tract	554
Lesions of the Genital System	554
Osteoarticular Lesions	555
Paracoccidioidomycosis in Association with other Diseases	556
Immunology	557
Laboratory Tests	557
Treatment	558
References	560
 Chapter XI: Lôbo's Disease (Keloidal Blastomycosis) . J.P. WIERSEMA, Washington, D.C., USA (With 13 Figures)	577
Definition	577
History	577
Geographical Distribution, Incidence, Epidemiology	577
Clinical Picture	578
Macroscopic Pathology	580
Microscopic Pathology	581
Mycology	585
Differential Diagnosis	588
References	588

Chapter XII: Mycetoma . D.J. WINNLOW, Bay Pines, Florida, USA (With 24 Figures) . . .	589
Historical	589
Terminology	590
Definition	591
Etiology and Pathogenesis	593
Geographical Distribution and Prevalence	596
Clinical Features	598
Pathology	599
Treatment	611
References.	612
 Chapter XIII: Sporotrichosis . H.I. LURIE, Richmond, Virginia, USA (With 22 Figures) . . .	614
Mycology	614
<i>Sporotrichum Schenckii</i>	615
Geographical Distribution	616
Etiology	618
Age Incidence	621
Sex Incidence	621
Incubation Period	621
Anatomic Site of Primary Lesion	622
Clinical Manifestations	623
A. Cutaneous Sporotrichosis	623
1. Epidermal	623
2. Dermal	624
3. Subcutaneous.	627
B. Extracutaneous Sporotrichosis	629
1. Mucous Membranes	629
2. Musculoskeletal System	629
3. Visceral	630
a) Pulmonary	630
b) Other Visceral Lesions	631
4. Central Nervous System	631
5. Organs of Special Senses	632
C. Acute and Subacute Febrile Sporotrichosis	632
D. Sporotrichids and Other Allergic Manifestations	632
E. Carrier States	633
Relative Frequency of Clinical Types	633
Histopathology	635
Nodular Dermal Lesion	635
Other Dermal Lesions	640
Epidermal Lesions	640
Subcutaneous Gumma	640
Musculoskeletal Lesions	642
Pulmonary Sporotrichosis	642
Central Nervous System	643
Ocular Sporotrichosis	643
Fungal Elements in Smears of Exudates and in Tissue Sections	643
Cigar Bodies and their Variants	645
The Asteroid Body	646
Hyphal Forms	651
Fungal Elements in the Circulating Blood	652
Eosinophilia in the Circulating Blood	652
Serology	652
1. Complement Fixation Test	652
2. Agglutination Reaction	652
3. Precipitin Reaction	653
4. Hemagglutination Reaction	653
Dermal Reaction	653
Sporotrichin or Sporotrichosin Test	653
Immunity	654
Experimental Sporotrichosis in Laboratory Animals	656
Fungal Elements in Tissue of Experimental Animals	660

Therapy	662
Prognosis	663
References	663

Chapter XIV: Rhinosporidiosis. L.N. MOHAPATRA, New Delhi, India (With 9 Figures) 676

Definition	676
Geographic Distribution	676
Epidemiology	677
Etiologic Agent	678
Pathologic Anatomy	680
Clinical Features	681
Diagnosis	682
Prognosis	682
Treatment	682
References	682

Chapter XV: Subcutaneous Phycomycosis and Rhino-Entomophthoromycosis. B.M. CLARK, and G.M. EDINGTON, Ibadan, Nigeria (With 3 Figures) 684

Subcutaneous Phycomycosis	684
Rhino-Entomophthoromycosis	687
References	689

Mycoses Caused by Dematiaceous (Brown) Fungi (Chapter XVI—XVIII)

Chapter XVI: Chromoblastomycosis (Chromomycosis). R. CÉSPEDES F., San José, Costa Rica (With 4 Figures) 691

Geographical Distribution and Incidence	691
References	699

Chapter XVII: Cladosporiosis of the Central Nervous Tissue. O. DUQUE, Medellín, Colombia (With 17 Figures) 701

Summary of Illustrative Cases	715
References	717

Chapter XVIII: Subcutaneous Abscesses due to Brown Fungi. H. ICHINOSE, New Orleans, Louisiana, USA (With 19 Figures) 719

Introduction	719
Definition of the Disease	719
Cases of Subcutaneous Abscesses	719
Mycology	719
Clinical	720
Gross Pathology	720
Histopathology	722
Organism in Tissue	724
Summary and Comment	727
References	729

Opportunistic Fungus Infections (Chapter XIX—XXI)

Chapter XIX: Candidosis. H.I. WINNER, London, Great Britain (With 33 Figures) 731

1. General	731
a) Definition	731
b) Epidemiology	731
c) Incidence and Predisposing Factors	731
2. Mycology	732
3. Diagnosis of Candida Infections	733
a) Identification from Clinical Specimens	733
b) Serological Diagnosis	735
c) Other Methods of Diagnosis	735

4. Pathogenesis of Candida Infections	736
5. Clinical Features and Pathology of Candida Infections	736
a) Infections of the Mouth	736
b) Skin	740
c) Lungs	741
d) Gut	743
e) Vagina	745
f) Candidosis and Endocrine Disorders	745
g) Systemic (Septicaemic) Candidosis	746
h) Candida Endocarditis	753
i) Candidosis of the Urinary Tract	757
6. Experimental Aspects of Candida Infections	758
References	759
 Chapter XX: Aspergillosis . C. E. PEÑA, Washington, D.C., USA (With 35 Figures)	762
Introduction	762
Definition	762
History	762
Mycology	764
Incidence and Epidemiology	766
Pathogenesis	768
General Morphology	770
Clinical Types and Morphologic Findings	776
Respiratory System	777
Cardiovascular System	796
Central Nervous System	800
Digestive System	805
Endocrine Glands	807
Genito-Urinary System	807
Spleen and Lymph Nodes	807
Musculo-Skeletal System	807
Eye, Adnexa and Orbit	808
Nose and Paranasal Sinuses	810
Ear	812
Skin and Adnexa	814
Nails	815
Mycetoma Pedis	815
Aspergillosis in Children	815
Aspergillosis in Animals	816
Mycotic Abortion	816
Pulmonary Aspergillosis in Mammals	816
Avian Aspergillosis	817
Toxins	817
Aflatoxins	818
Biological Effects	819
References	821
 Chapter XXI: Mucormycosis (Opportunistic Phycomycosis). R. D. BAKER, New Brunswick, New Jersey, USA (With 43 Figures)	832
Definition	832
The History of Mucormycosis	834
Mycology	835
Appearance of Mucoraceae in Tissues	838
Epidemiology	840
Predisposing Diseases and Conditions	841
Experimental Mucormycosis	843
Cranial Mucormycosis	843
Nasal Mucormycosis	856
Palatal Mucormycosis	858
Paranasal Mucormycosis	858
Mucormycotic Otitis Media	859
Orbital Mucormycosis	859
Ocular Mucormycosis	860

Mucormycosis of the Brain	864
Cerebral Lesions from the Systemic Blood Stream	873
Mucormycotic Mycotic Aneurysms	874
Mucormycosis of the Spinal Cord	880
Primary Pulmonary Mucormycosis	888
Summary of Primary Pulmonary Mucormycosis	888
Hematogenous Pulmonary Mucormycosis	880
Esophageal Mucormycosis	894
Mycormycosis of the Stomach	895
Intestinal Mucormycosis	901
Disseminated Mucormycosis	905
Cutaneous and Subcutaneous Mucormycosis	906
Focal Mucormycosis	910
Spontaneous Mucormycosis in Animals	910
References	913

Unusual and Rare Mycoses (Chapter XXII—XXIII)

Chapter XXII: Geotrichosis . J. MORENZ, Magdeburg, DDR (With 12 Figures)	919
A. Definition	919
B. Geographical Extent and Epidemiology	919
C. <i>Geotrichum Candidum</i> -Occurrence in Humans	920
1. Intestinal Tract	920
2. Respiratory Tract	921
3. Skin	922
4. Urogenital Tract	922
D. Mycology	923
1. Micromorphology	923
2. Direct Preparations	923
3. Culture	924
4. Physiology	925
E. Pathogenesis and Immunology	926
1. Pathogenesis	926
2. Immunology	926
F. Symptomatology, Diagnosis, and Therapy	927
1. Bronchopulmonary <i>Geotrichosis</i>	928
2. Bronchial <i>Geotrichosis</i>	935
3. Oral <i>Geotrichosis</i>	936
4. Cutaneous <i>Geotrichosis</i>	939
5. Other <i>Geotrichoses</i>	942
6. Specific Therapy	944
G. <i>Geotrichum Candidum</i> Infection in Animals	945
References	949
Chapter XXIII: Miscellaneous Uncommon Diseases Attributed to Fungi and Actinomycetes . J. C. PARKER jr., Boston, Mass., USA, and G. K. KLINTWORTH, Durham, N.C., USA (With 60 Figures)	953
Adiaspiromycosis (Haplomycosis)	953
Allescheriosis (Monosporiosis)	956
Alternariosis	962
Arthrodermosis	963
Beauveriosis	967
Cephalosporiosis	968
Cercosporamycosis	973
Cryptosporiosis (Coniosporiosis or Maple-Bark Disease)	974
Curvulariosis	977
Dermatophilosis (Cutaneous Streptothricosis)	978
Fusariosis	982
Helminthosporiosis	985
Keratomycosis	986
Otomycosis	987
Paecilomycosis	989

Penicilliosis	990
Rhodotorulosis	996
Streptomyces	997
Toruloposis	1001
Ustilagosis (Ustilagomycosis)	1003
References	1004

Infections with Actinomycetes (Chapter XXIV—XXV)

Chapter XXIV: Actinomycosis. D.J. GUIDRY, New Orleans, Louisiana, USA (With 18 Figures)	1019
Definition	1019
Historical	1019
Geographic Pathology	1022
Mycology	1023
<i>Actinomyces israelii</i>	1029
<i>Actinomyces bovis</i>	1030
<i>Actinomyces propionicus</i> Sp. nov.	1031
<i>Actinomyces eriksonii</i>	1032
<i>Actinomyces naeslundii</i>	1032
Pathogenesis	1032
Gross and Microscopic Appearances	1036
Differential Diagnosis	1050
Clinical Features	1050
Prognosis	1052
Therapy	1052
References	1053

Chapter XXV: Nocardiosis. P. PIZZOLATO, New Orleans, Louisiana, USA (With 15 Figures)	1059
Definition	1059
Mycology	1059
Incidence	1061
Clinical Manifestations	1062
Laboratory Findings	1062
Roentgen Findings	1063
Gross Lesions	1064
Microscopic Lesions	1073
Animal Pathogenicity	1074
Diagnosis	1075
Treatment	1075
References	1077

Infection with Algae (Chapter XXVI)

Chapter XXVI: Protothecosis — Algal Infection. B.F. FETTER, G.K. KLINTWORTH, and H.S. NIELSEN, Jr., Durham, N.C., USA (With 15 Figures)	1081
Organism	1081
Prototheca and Disease	1087
References	1093
Authors Index	1094
Subject Index	1178
