

Contents

I Flexible Frameworks	1
Introduction	3
<i>Thomas Willemeit</i>	
1 Digital Technologies—A Key Driver for the Transformation of German Health Care	5
<i>Jörg F. Debatin</i>	
2 Methodical Procedure for Regional Structural Changes in the Hospital Sector— Examples from Denmark	11
<i>Carolina Lohfert Praetorius and Henrik Praetorius</i>	
3 Hôpital Universitaire Saint-Ouen Grand Paris Nord	19
<i>Jérôme Brunet and Thorsten Sahlmann</i>	
II Adaptive Structures	33
Introduction	35
1 Future Cities Health Care Ecosystems—Digitally Enabling Hybrid Care Models across Physical and Virtual Environments	37
<i>Nirit Pilosof, Eivor Oborn and Michael Barrett</i>	
2 The Role of Building Services in the Resilient and Zero Carbon Future of Health Care Design	47
<i>Frank Jensen</i>	
3 The Hospital of the Future	55
<i>Reinier de Graaf</i>	
III Fix—Recover—Prevent	63
Introduction	65
<i>Sebastian Redecke</i>	
1 Circle of Health—Expanding Berlin’s Medical Care	67
<i>Ann-Kathrin Salich</i>	
2 Modular Solutions for a Sustainable Future	75
<i>Magnus Nickl</i>	

IV Responses to global crises	83
Introduction	85
<i>Cor Wagenaar</i>	
1 A Safe Environment to Look Micro and Design Macro—The WHO Technical Science for Health Network	89
<i>Michele Di Marco and Luca Fontana</i>	
2 Sustainable Futures—Digital Technologies	95
<i>Hannes Mayer</i>	
3 Structure and Synthesis	103
<i>Edzard Schultz</i>	
Closing Words	111
<i>Stefanie Matthys</i>	
Science in Dialogue with Industry	113
