## Part I The Course of Explosions

<i>1</i>	<i>Introduction</i> . . . . .	3
<i>2</i>	<i>Explosions in Closed Vessels</i> . . . . .	4
2.1	Flammable Gases . . . . .	4
2.1.1	Explosion Limits . . . . .	4
2.1.2	Explosion Pressure – Violence of Explosion . . . . .	7
	Flammable Gas (Vapour)/Air Mixtures . . . . .	7
	Flammable Gas/Oxygen Mixtures . . . . .	23
	Chlorine/Hydrogen Mixtures . . . . .	25
2.2	Combustible Dusts . . . . .	27
2.2.1	Preliminary Remarks . . . . .	27
2.2.2	Explosion Limits . . . . .	27
2.2.3	Explosion Pressure – Violence of Explosion . . . . .	27
2.2.4	Lowest Minimum Ignition Energy . . . . .	44
2.3	Hybrid Mixtures . . . . .	49
2.3.1	Preliminary Remarks . . . . .	49
2.3.2	Explosion Limits . . . . .	49
2.3.3	Explosion Pressure – Explosion Violence . . . . .	50
2.3.4	Lowest Minimum Ignition Energy . . . . .	53
2.4	Conclusions . . . . .	55
<i>3</i>	<i>Explosions – Detonations in Pipelines</i> . . . . .	56
3.1	Preliminary Remarks . . . . .	56
3.2	Flammable Gases . . . . .	57
3.3	Combustible Dusts . . . . .	65
3.4	Conclusions . . . . .	69
<i>4</i>	<i>References</i> . . . . .	70

## **Part II Protective Measures to Prevent Explosions or to Control Their Effects**

<i>1</i>	<i>Preliminary Remarks . . . . .</i>	<i>75</i>
<i>2</i>	<i>Measures to Prevent Explosions . . . . .</i>	<i>77</i>
2.1	Inerting . . . . .	77
2.1.1	Preliminary Remarks . . . . .	77
2.1.2	Flammable Gases . . . . .	77
2.1.3	Combustible Dusts . . . . .	83
2.1.4	Conclusions . . . . .	86
<i>3</i>	<i>Safety Measures Against the Effects of Explosions Within Enclosures or Rooms . . . . .</i>	<i>87</i>
3.1	Preliminary Remarks . . . . .	87
3.2	Explosion Resistant Construction . . . . .	87
3.2.1	Pressure Vessels . . . . .	87
3.2.2	Pressure Shock Resistant Vessels . . . . .	87
3.2.3	Conclusions . . . . .	89
3.3	Explosion Relief Venting . . . . .	89
3.3.1	Preliminary Remarks . . . . .	89
3.3.2	Description of Relief Venting . . . . .	89
	Relief Venting of Vessels . . . . .	89
	Relief Venting of Rooms . . . . .	90
3.3.3	Design and Properties of Relief Venting Devices . . . .	91
	Preliminary Remarks . . . . .	91
	Bursting Discs . . . . .	93
	Bursting Discs Made of Brittle, Non-Deformable Material . . . . .	93
	Bursting Discs Made of Deformable Material . . . . .	93
	Auxiliary Activation Bursting Discs . . . . .	100
	Explosion Plates . . . . .	101
	Self Closing Relief Devices . . . . .	102
	Explosion Doors . . . . .	102
	Spring Loaded Relief Devices . . . . .	104
	Conclusions . . . . .	104
3.3.4	Sizing of Relief Areas . . . . .	105
	Preliminary Remarks . . . . .	105
	Flammable Gases . . . . .	106
	Combustible Dusts . . . . .	113
	Safe Discharge of Pressure Wave, Flames and Gases . .	115
	Elongated Vessels (Silos) . . . . .	119
3.3.5	Limits of Applicability . . . . .	124
3.4	Explosion Suppression . . . . .	125
3.4.1	Preliminary Remarks . . . . .	125
3.4.2	Description of Method . . . . .	125

3.4.3	Selection of the Sensor System . . . . .	125
3.4.4	Description of the Extinguishing Systems . . . . .	129
3.4.5	Selection of the Best Extinguishing Medium . . . . .	130
3.4.6	Limits of Applicability . . . . .	137
3.4.7	Extinguishing Agent Requirement . . . . .	140
3.4.8	Special Application Problems . . . . .	144
	The Influence of Initial Pressure . . . . .	144
	Suppression of Explosions of Organic Peroxides . . . . .	144
3.5	Conclusions . . . . .	144
<b>4</b>	<b><i>Safety Measures Against the Effects of Explosions in Pipelines</i></b> . . . . .	<b>146</b>
4.1	Flame Barriers . . . . .	146
4.1.1	Preliminary Remarks . . . . .	146
4.1.2	Mechanical Flame Barriers . . . . .	154
	Preliminary Remarks . . . . .	154
	Explosion Barriers . . . . .	154
	Long Time Flame Barriers . . . . .	158
	Detonation Barriers . . . . .	161
4.1.3	Automatic Extinguishing Barrier . . . . .	162
4.2	Explosion Relief Venting . . . . .	168
4.2.1	Preliminary Remarks . . . . .	168
4.2.2	Relief Venting Device for the End of a Pipeline . . . . .	171
	Bursting Discs, Activated Discs . . . . .	171
	Explosion Doors . . . . .	172
	Spring Loaded Valves . . . . .	176
4.3	Rapid Action Valves . . . . .	177
4.4	Conclusions . . . . .	181
<b>5</b>	<b><i>Summary</i></b> . . . . .	<b>182</b>
<b>6</b>	<b><i>References</i></b> . . . . .	<b>183</b>
<b>Part III</b>	<b>Practical Applications of Protective Measures on Technical Equipment</b>	
<b>1</b>	<b><i>Preliminary Remarks</i></b> . . . . .	<b>189</b>
<b>2</b>	<b><i>Protective Measures for Equipment</i></b> . . . . .	<b>191</b>
2.1	Grinders . . . . .	191
2.1.1	Preliminary Remarks . . . . .	191
2.1.2	Parameters Influencing the Pressure vs. Time Course of Explosions . . . . .	191
2.1.3	Conclusions . . . . .	195

2.2	Bag Slitting Machines . . . . .	195
2.2.1	Preliminary Remarks . . . . .	195
2.2.2	The Application of Combined Protective Measures . .	195
2.3	Fluid Bed Driers and Granulators . . . . .	198
2.3.1	Preliminary Remarks . . . . .	198
2.3.2	The Application of Secondary Protective Measures . .	200
	Basic Requirements of the Apparatus . . . . .	200
	Square Shape . . . . .	200
	Round Shape . . . . .	201
	Conclusions . . . . .	203
	Explosion Relief Venting . . . . .	203
	Relief on Product Side of Filter . . . . .	203
	Relief on Clean Side of Filter . . . . .	208
	Explosion Suppression . . . . .	211
	Additional Requirements . . . . .	213
2.4	Dust Separation Filters . . . . .	215
2.4.1	Preliminary Remarks . . . . .	215
2.4.2	Pocket Filters . . . . .	217
	Application of Explosion Relief Venting . . . . .	217
	Conclusions . . . . .	220
2.4.3	Hose Filters . . . . .	221
	Application of Explosion Relief Venting . . . . .	221
	The Location of the Ignition Source Within the Filter Housing . . . . .	221
	Explosion Propagation from a Pipeline . . . . .	224
	Application of Explosion Suppression . . . . .	228
2.4.4	Conclusions . . . . .	228
3	<i>Safeguards on Combined Equipment</i> . . . . .	229
3.1	Preliminary Remarks . . . . .	229
3.2	Grinding Installations . . . . .	229
3.2.1	Protection by Inerting . . . . .	229
3.2.2	Protection by Relief Venting . . . . .	232
3.2.3	Protection by Explosion Suppression . . . . .	232
3.3	Spray Drying Installations . . . . .	235
3.3.1	Protection by Inerting . . . . .	237
3.3.2	Protection by Explosion Relief Venting . . . . .	238
3.3.3	Protection by Explosion Suppression . . . . .	240
3.4	Conclusions . . . . .	241
4	<i>Closing Remarks</i> . . . . .	242
5	<i>References</i> . . . . .	244
	<i>Subject Index</i> . . . . .	247
